Tithing

Test Me in This

Thomas Nelson “‘Bring the whole tithe into the storehouse, that there may be food in my house. Test me in this,’ says the Lord Almighty, ‘and see if I will not throw open the floodgates of heaven and pour out so much blessing that you will not have room enough for it.’” — Malachi 3:10 In these uncertain economic times, does it really make sense to tithe? Douglas LeBlanc thinks the answer is clear enough in Malachi 3:10, where God goes so far as to tell us, “Test me in this.” The people profiled in this book have done exactly that—and the effect on their lives has been dramatic. In these intimate journalistic portraits, LeBlanc shows us true tithing in action. From members of the clergy, to best-selling authors, to social activists both conservative and liberal, these are the lives of real people who tithe in joy and plenty, in the face of poverty and natural disaster, in community and missionally, and as a spiritual practice commanded by God. They come from different backgrounds and live in varying degrees of financial comfort; but they all tithe—and wouldn’t have it any other way. Through their eyes, we come to understand this ancient practice as God’s call to a life of generosity, compassion, and joy. **THE ANCIENT PRACTICES** There is a hunger in every human heart

for connection, primitive and raw, to God. To satisfy it, many are beginning to explore traditional spiritual disciplines used for centuries. . . everything from fixed-hour prayer to fasting to sincere observance of the Sabbath. Compelling and readable, the Ancient Practices series is for every spiritual sojourner, for every Christian seeker who wants more.

Atlas of CT Angiography

Normal and Pathologic Findings

[Springer](#) This atlas presents normal and pathologic findings observed on CT angiography with 3D reconstruction in a diverse range of clinical applications, including the imaging of cerebral, carotid, thoracic, coronary, abdominal and peripheral vessels. The superb illustrations display the excellent anatomic detail obtained with CT angiography and depict the precise location of affected structures and lesion severity. Careful comparisons between normal imaging features and pathologic appearances will assist the reader in image interpretation and treatment planning and the described cases include some very rare pathologies. In addition, the technical principles of the modality are clearly explained and guidance provided on imaging protocols. This atlas will be of value both to those in training and to more experienced practitioners within not only radiology but also cardiovascular surgery, neurosurgery, cardiology and neurology.

Rules for Reformers

[Canon Press & Book Service](#) In *Rules for Reformers*, Douglas Wilson poaches the political craft of radical progressives and applies it to Christian efforts in the current culture war. The result is a spicy blend of combat manual and cultural manifesto. *Rules for Reformers* is a little bit proclamation of grace, a little bit Art of War, and a little bit analysis of past embarrassments and current cowardice, all mixed together with a bunch of advanced knife-fighting techniques. As motivating as it is provocative, *Rules for Reformers* is just plain good to read. Thanks to Saul Alinsky's *Rules for Radicals: A Practical Primer for Realistic Radicals*--a book well-beloved by Barack Obama, Hillary Clinton, and many others--for much of the shrewd advice, and for none of the worldview.

The Truth About Hillary

What She Knew, When She Knew It, and How Far She'll Go to Become President

[Penguin](#) Hillary Rodham Clinton is the most polarizing figure in American politics. Love her or hate her, everyone has a strong opinion about the former first lady turned senator who is almost certainly going to run for president in 2008. Despite more than a dozen years in the national spotlight and more than a dozen unauthorized books about her, she has managed to keep many secrets from the public especially about her turbulent marriage and its impact on her career. There have been plenty of rumors about what Hillary and Bill Clinton did behind closed doors, but never a definitive book that exposes the truth. Bestselling author Edward Klein draws on rare access to inside sources to reveal what Hillary knew and when she knew it during her years as first lady, especially during her husband's impeachment. Klein's book, embargoed until publication, will break news about the choices and calculations she has made over the years. It will also prove that she lied to America in her bestselling autobiography *Living History*. When she was just a little girl, Hillary Rodham dreamed of becoming the first female president, and her lifelong dream is almost within reach. But just as the swift boat veterans convinced millions of voters that John Kerry lacked the character to be president, Klein's book will influence everyone who is sizing up the character of Hillary Clinton.

The Protective Arm of the Renin Angiotensin System

(RAS)

Functional Aspects and Therapeutic Implications

Academic Press **The Protective Arm of the Renin Angiotensin System: Functional Aspects and Therapeutic Implications** is the first comprehensive publication to signal the protective role of a distinct part of the renin-angiotensin system (RAS), providing readers with early insight into a complex system which will become of major medical importance in the near future. Focusing on recent research, The Protective Arm of the Renin Angiotensin System presents a host of new experimental studies on specific components of the RAS, namely angiotensin AT2 receptors (AT2R), the angiotensin (1-7) peptide with its receptor Mas, and the enzyme ACE 2, which exert significant beneficial, health-promoting actions by counterbalancing the well-known harmful arm of the RAS with its classical angiotensin AT1 receptor. This innovative concept of the protective arm of the RAS, examined in this reference, represents an indispensable background and will be a strong support for biomedical students, researchers, cardiologists, surgeons, nephrologists, diabetologists, and endocrinologists, as well as any other physician or researcher concerned with RAS physiology, pathophysiology and clinical implications. Provides a complete understanding of the protective side of the Renin Angiotensin System (RAS) involving angiotensin AT2 receptor, ACE2, and Ang(1-7)/Mas receptor Combines the knowledge of editors who pioneered research on the protective renin angiotensin system including; Dr. Thomas Unger, one of the founders of AT2 receptor research; Dr. Ulrike M. Steckelings, who contributed significantly to first preclinical studies with a novel specific AT2-agonist, and Dr. Robson Santos who pioneered research on angiotensin-(1-7) and its receptor Mas. Shows that the protective RAS axes are able to ameliorate the course of several cardiovascular, renal, metabolic and neurological diseases Provides the basis for the understanding of a novel therapeutic approach to stimulate components of the protective arm of the RAS.

The Rsa Adventure

The Untold Story Now Revealed

FriesenPress **Everybody has a story. Not everybody has the desire or ability to write their story down. In one hand I had a pen, with a pad in the other. This is a story which I have never shared with anyone. My mind went back to where my adventure first began. I first met her as an adult while I was crossing that football field which I had walked across for many months. What happened that night was the start of an adventure which I will never forget as long as I have a memory. This adventure was like a thrill ride which kept on going up and down, then ending in a way that I never thought would ever happen to me. This is my story. This story begins with an event which changed the path which my life was travelling on. I dare you to come along for the ride on the most thrilling experience of my life....**

1001 Walks

You Must Experience Before You Die

Cassell Illustrated **1001 Walks You Must Experience Before You Die** is the perfect guide to the world's most exhilarating walks. The ever-increasing passion for recreational walking is given fresh impetus with the creation of each new national park and wilderness area, the construction of every new walkway and the clearing of another fresh trail. The growth in popularity of pathways and woodland walks, and the conversion of canal banks and disused railways around the world to mixed-use walkand cycle-ways, means we now have unprecedented access to our cities and to ever-increasing tracts of our rural heritage. The wide-ranging, carefully chosen featured routes vary from the rugged delights of Wales's Pembrokeshire Coastal Path to the lush wilderness of Jamaica and the Harz Witches' Trail high in the German mountains. The hand-picked excursions cover overland paths, urban trails, mountain passes, coastal and shoreline strolls, and walks that explore the heritage of the world's most culturally rich destinations. There are gentle walks for beginners - some lasting barely an hour - and more demanding challenges for seasoned enthusiasts that will take months to achieve. Every page provides a wealth of information about a must-try walk, including start and end points, overall distance, difficulty rating, terrain and an estimation of the time it should take to complete, along with links to specially commissioned digital route maps. In short, 1001 Walks You Must Experience Before You Die is an essential reference guide for all those who love to get out of their cars, get off their bikes and lace up their walking shoes.

Grandmother Power

A Global Phenomenon

powerHouse Books Whether fighting for the environment, human rights, education, health, or cultural preservation, a new generation of activist grandmothers across the world are using their strength, wisdom, and hearts to make a difference. An unheralded grandmothers' movement is changing the world. Insurgent grandmothers are using their power to fight for a better future for grandchildren everywhere. And they are succeeding. Grandmother Power profiles activist grandmothers in fifteen countries on five continents who tell their compelling stories in their own words. Grandmothers in Canada, Swaziland, and South Africa collaborate to care for AIDS orphans. Grandmothers in Senegal convince communities to abandon female genital mutilation. Grandmothers in India become solar engineers and bring light to their villages while those in Peru, Thailand, and Laos sustain weaving traditions. Grandmothers in Argentina teach children to love books and reading. Other Argentine grandmothers continue their 40-year search for grandchildren who were kidnapped during the nation's military dictatorship. Irish grandmothers teach children to sow seeds and cook with fresh, local ingredients. Filipino grandmothers demand justice for having been forced into sex slavery during World War II. Guatemalan grandmothers operate a hotline and teach parenting. In the Middle East, Israeli grandmothers monitor checkpoints to prevent abuse and the UAE's most popular television show stars four animated grandmothers who are surprised by contemporary life. Indigenous grandmothers from thirteen countries conduct healing rituals to bring peace to the world. Gianturco's full-color images and her heroines' amazing tales make Grandmother Power an inspiration for everyone, and it cements the power of grandmothers worldwide. Please visit <http://globalgrandmotherpower.com/> for additional information. All author royalties will be donated to the Stephen Lewis Foundation's Grandmothers to Grandmothers campaign, which provides grants to African grandmothers who are raising AIDS orphans.

Loving Che

Open Road + Grove/Atlantic In this "evocative first novel," an elderly woman looks back on the world of revolutionary Cuba as she recalls her intimate, secret love affair with Ernesto "Che" Guevara (Publishers Weekly). A young Cuban woman has been searching in vain for details of her birth mother. All she knows of her past is that her grandfather fled the turbulent Havana of the 1960s for Miami with her in tow, and that pinned to her sweater—possibly by her mother—were a few treasured lines of a Pablo Neruda poem. These facts remain her only tenuous links to her history, until a mysterious parcel arrives in the mail. Inside the soft, worn box are layers of writings and photographs. Fitting these pieces together with insights she gleans from several trips back to Havana, the daughter reconstructs a life of her mother, her youthful affair with the dashing, charismatic Che Guevara and the child she bore by the enigmatic rebel. *Loving Che* is a brilliant recapturing of revolutionary Cuba, the changing social mores, the hopes and disappointments, the excitement and terror of the times. It is also an erotic fantasy, a glimpse into the private life of a mythic public figure, and an exquisitely crafted meditation on memory, history, and storytelling. Finally, *Loving Che* is a triumphant unveiling of how the stories we tell about others ultimately become the story of ourselves. "A moving novel from a writer to watch." —Publishers Weekly "Inventive and hypnotic . . . [An] artful and restless examination of the exile soul." —Los Angeles Times "[Menendez] captures Cuba's potential, its desperation and decay, and also its dark humor." —The New York Times "The writing is consistently beautiful. Highly recommended." —Library Journal

A Calf for Venus

The Coffee House was a warm brightly-lit place. The serving girls were pretty and the men who visited the rooms were polite. The young doctor had never been inside the Coffee House. However, when he met a frail, shabbily-dressed girl, and learned she was going to work there, he decided that it was time to visit this secretive place.

Jews and Shoes

Berg Pub Limited Shoes are an integral part of Jewish material culture. Although they appear in some of the most foundational biblical stories, they are generally regarded as no more than lowly, albeit essential, accessories. *Jews and Shoes* takes a fresh look at the makings and meanings of shoes, cobblers, and barefootedness in Jewish experience. The book shows how shoes convey theological, social, and economic concepts, and as such are intriguing subjects for inquiry within a wide range of cultural, artistic, and historic contexts. The book's multidisciplinary approach encompasses a wide range of contributions from disciplines as diverse as fashion, visual culture, history, anthropology, Bible and Talmud, and performance studies. *Jews and Shoes* will appeal to students, scholars and

general readers alike who are interested to find out more about the practical and symbolic significance of shoes in Jewish culture since antiquity.

The Book of L

Springer Science & Business Media **This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and O (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.**

In Her Hands

Craftswomen Changing the World

Power House Books **Foreword by Alice Walker. From the dollmakers of Turkey to the batik artists of Indonesia, women in developing economies provide for their families by creating and selling indigenous crafts which draw on cultural traditions. Often driven by the harsh realities of poverty, these craftswomen come together in groups creating a kind of micro-enterprise, often strengthened into cooperatives through financial aid. In this volume we hear their individual voices, culled from five years of travelling and meeting these resourceful and creative women.**

The Hardmen: Legends and Lessons from the Cycling Gods

Simon and Schuster **Embrace and revel in the stories of the toughest cyclists of all time, told by The Velominati, originators of The Rules. Read and get ready to ride . . . In cycling, suffering brings glory: a rider's value can be judged by their results, but also by their panache and heroism. Prepared to be awed and inspired by Chris Froome riding on at the Tour de France with a broken wrist or Geraint Thomas finishing it with a broken pelvis. In The Hardmen the writers behind cycling superblog Velominati.com and The Rules will tell the stories and illuminate the myths of not just the greatest cyclists ever, but the toughest. From Eddy Merckx to Beryl Burton, and from Marianne Vos to Edwig Van Hooydonk, the book will lay bare the secrets of their extraordinary and inspirational endurance in the face of pain, danger and disaster. After all, suffering is one of the joys of being a cyclist. Embrace climbs, relish the descents, and get ready to harden up. . .**

The Sixth Station

An Alessandra Russo Novel

[Forge Books](#) Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.
