Materials Handling News Alone [Sourcebooks, Inc.](#) This must-read for lovers of Stephen King's *The Shining* will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

Simulation of Semiconductor Processes and Devices 2004 [Springer Science & Business Media](#) This volume contains the proceedings of the 10th edition of the International Conference on Simulation of Semiconductor Processes and Devices (SISPAD 2004), held in Munich, Germany, on September 2-4, 2004. The conference program included 7 invited plenary lectures and 82 contributed papers for oral or poster presentation, which were carefully selected out of a total of 151 abstracts submitted from 14 countries around the world. Like the previous meetings, SISPAD 2004 provided a world-wide forum for the presentation and discussion of recent advances and developments in the theoretical description, physical modeling and numerical simulation and analysis of semiconductor fabrication processes, device operation and system performance. The variety of topics covered by the conference contributions reflects the physical effects and technological problems encountered in consequence of the progressively shrinking device dimensions and the ever-growing complexity in device technology.

South Park Annual 2014 [Pedigree Books Limited](#) *Twin Cities Noir The Expanded Edition* [Akashic Books](#) "Local editors Schaper and Horwitz have assembled a noteworthy collection of noir-infused stories mixed with laughter...The Akashic noir short-story anthologies are avidly sought and make ideal samplers for regional mystery collecting." --Library Journal "The best pieces in the collection turn the clichés of the genre on their head . . . and despite the unseemly subject matter, the stories are often surprisingly funny." —City Pages (Minneapolis) Brand-new stories from John Jodzio, Tom Kaczynski, and Peter Schilling, Jr., in addition to the original volume's stories by David Housewright, Steve Thayer, Judith Guest, Mary Logue, Bruce Rubenstein, K.J. Erickson, William Kent Krueger, Ellen Hart, Brad Zellar, Mary Sharratt, Pete Hautman, Larry Millett, Quinton Skinner, Gary Bush, and Chris Everheart. "St. Paul was originally called Pig's Eye's Landing and was named after Pig's Eye Parrant--trapper, moonshiner, and proprietor of the most popular drinking establishment on the Mississippi. Traders, river rats, missionaries, soldiers,

land speculators, fur trappers, and Indian agents congregated in his establishment and made their deals. When Minnesota became a territory in 1849, the town leaders, realizing that a place called Pig's Eye might not inspire civic confidence, changed the name to St. Paul, after the largest church in the city . . . Across the river, Minneapolis has its own sordid story. By the turn of the twentieth century it was considered one of the most crooked cities in the nation. Mayor Albert Alonzo Ames, with the assistance of the chief of police, his brother Fred, ran a city so corrupt that according to Lincoln Steffans its 'deliberateness, invention, and avarice has never been equaled.' As recently as the mid-'90s, Minneapolis was called 'Murderopolis' due to a rash of killings that occurred over a long hot summer . . . Every city has its share of crime, but what makes the Twin Cities unique may be that we have more than our share of good writers to chronicle it. They are homegrown and they know the territory--how the cities look from the inside, out . . ."

Scalia Dissents Writings of the Supreme Court's Wittiest, Most Outspoken Justice [Simon and Schuster](#) Brilliant. Colorful. Visionary. Tenacious. Witty. Since his appointment to the Supreme Court in 1986, Associate Justice Antonin Scalia has been described as all of these things and for good reason. He is perhaps the best-known justice on the Supreme Court today and certainly the most controversial. Yet most Americans have probably not read even one of his several hundred Supreme Court opinions. In *Scalia Dissents*, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, lets Justice Scalia speak for himself. This volume—the first of its kind— showcases the quotable justice's take on many of today's most contentious constitutional debates. *Scalia Dissents* contains over a dozen of the justice's most compelling and controversial opinions. Ring also provides helpful background on the opinions and a primer on Justice Scalia's judicial philosophy. *Scalia Dissents* is the perfect book for readers who love scintillating prose and penetrating insight on the most important constitutional issues of our time.

Hot Rod Empire Robert E. Petersen and the Creation of the World's Most Popular Car and Motorcycle Magazines [Motorbooks](#) Hot Rod Empire details Robert E. Petersen's creation of Hot Rod Magazine in the 1940s and the Petersen Publishing empire that grew to the mainstream juggernaut we know today. The end of World War II marked the release of pent-up war-years energy and the desire to live. For many this meant indulging in long-denied purchases, like a new car. For another group, including young vets, it meant a return to car building and racing. Money, exciting new cars, and speed parts all flowed freely in post-war America. Robert Petersen, a young SoCal-based photographer and Army Air Corps vet, noted the rapidly growing hot rod scene in and around Los Angeles. His first move was to organize the Los Angeles Hot Rod Exhibition in 1948. His second, and brilliant, move was to launch at the same event the first edition of Hot Rod magazine. From this launch pad, Petersen Publishing Company would grow to become the most influential enthusiast publisher in America. Petersen's magazines were rallying points for all aspects of the car, truck, and motorcycle hobbies, well as nurturing and promoting all aspects from car building to racing to show events. Hot Rod, Motor Trend, Car Craft, Motorcyclist, Off-Road and Four Wheel Drive and some 75 other enthusiast titles dominated magazine racks and provided substantial influence over transportation and numerous other hobbies. Hot Rod Empire celebrates the birth and explosive growth of the transportation hobby under Petersen's watch.

Medical Anthropology A Biocultural Approach [Oxford University Press, USA](#) Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

Graced by Waters Personal Essays on Fly Fishing and the Transformative Power of Nature [Savio Republic](#) In this inspirational and humorous collection of essays, author John Dietsch sees his addiction to and passion for fishing as a parable that can help us shift from compulsive thinking to mindfulness and a closer connection to God. From creating fishing scenes on the set of *A River Runs Through It* in Montana, to directing fly fishing shows in New Zealand and from exploring deep canyons in California to guiding in Colorado, John shares his experiences and asks the question: what are we really fishing for? Through John's journeys across the globe, we discover that the same pursuit in fishing—of what is elusive but attainable—can be applied to our own spiritual journey. In the end, Dietsch uncovers his own truth under the rocks of a childhood river, recognizing the loss of both his brothers as the path of acceptance and faith that is graced by waters.

The result: an unprecedented method that enables the bereaved to reconnect, resolve unfinished business, and make peace with the deceased.
