# Trading in the Zone

# Maximizing Performance with Focus and Discipline

*John Wiley & Sons "Trading in the Zone" - Ein praktischer Ratgeber zur Überwindung jener Hindernisse, die erfolgreiches Handeln unmöglich machen. Die seelische Verfassung eines Händlers ist ausschlaggebend für den Erfolg. Viele psychologische Faktoren können die Entscheidungen im Verlauf eines Handelstages beeinflussen. Dieses Buch erläutert, wie sich Händler von Gefühlen wie Angst, Habgier oder Übereifer befreien können, um sich besser auf das eigentliche Handeln zu konzentrieren. Denn nur wenn ein Händler ein Höchstmaß an Konzentration und Aufmerksamkeit entwickelt, kann er erfolgreiche Handelsentscheidungen treffen. Dieses Buch ist in der Reihe 'Wiley Online Trading for a Living' erschienen.*

## The Disciplined Trader

## Developing Winning Attitudes

*Penguin The classic book that introduced the investment industry to the concept of trading psychology. With rare insight based on his firsthand commodity trading experience, author Mark Douglas demonstrates how the mental matters that allow us function effectively in society are often psychological barriers in trading. After examining how we develop losing attitudes, this book prepares you for a thorough "mental housecleaning" of deeply rooted thought processes. And then it shows the reader how to develop and apply attitudes and behaviors that transcend psychological obstacles and lead to success. The Disciplined Trader helps you join the elite few who have learned how to control their trading behavior (the few traders who consistently take the greatest percentage of profits out of the market) by developing a systematic, step-by-step approach to winning week after week, month after month. The book is divided into three parts: • An overview of the psychological requirements of the trading environment • A definition of the problems and challenges of becoming a successful trader • Basic insights into what behavior may need to be changed, and how to build a framework for accomplishing this goal • How to develop specific trading skills based on a clear, objective perspective on market action "A groundbreaking work published in 1990 examining as to why most traders cannot raise their equity on a consistent basis, bringing the reader to practical conclusions to go about changing any limiting mindset."—Larry Pesavento, TradingTutor.com*

## Trading to Win

### The Psychology of Mastering the Markets

John Wiley & Sons *Even the best trading system can prove disastrous if the trader doesn't have the ability to stick to their strategy. Featuring real-life case studies, The Psychology of Trading presents a step-by-step, goal-oriented approach to trading that emphasizes ways to keep emotions in check, overcome self-doubt, and focus clearly on a winning strategy.*

### Trade Your Way to Financial Freedom

McGraw Hill Professional *The bestselling holy grail of trading information—now brought completely up to date to give traders an edge in the marketplace “Sound trading advice and lots of ideas you can use to develop your own trading methodology.”—Jack Schwager, author of Market Wizards and The New Market Wizards This trading masterpiece has been fully updated to address all the concerns of today's market environment. With substantial new material, this second edition features Tharp's new 17-step trading model. Trade Your Way to Financial Freedom also addresses reward to risk multiples, as well as insightful new interviews with top traders, and features updated examples and charts.*

### Mastering the Trade, Second Edition: Proven Techniques for Profiting from Intraday and Swing Trading Setups

McGraw Hill Professional *The essential guide to launching a successful career in trading—updated for today's turbulent markets “Mastering the Trade is an excellent source for a basic understanding of market action, be it day and/or longer-term trend trading. A programmer will have a field day with the many ideas that are in this book. It is highly recommended.” —John Hill, president of Futures Truth magazine “John Carter's new book focuses quickly on the critical area of trader psychology, a realm that will often separate the trader from his wallet if it is not mastered first. The in-depth trading strategies clearly show how to respond to market moves based on real-world examples.” —Price Headley, founder of BigTrends.com and author of Big Trends in Trading “Well written*

*and packed with the kind of insight about the nature of trading and the markets that can surely benefit every level of trader.” —Mark Douglas, author of Trading in the Zone and The Disciplined Trader “This is a must read for all new traders, specifically for the psychological aspect of trading. I am recommending it to all of my clients.” —Carolyn Boroden, FibonacciQueen.com About the Book: When it was first published in 2005, Mastering the Trade became an instant classic in the world of day trading. Now, veteran day trader and educator John F. Carter has updated his time-proven swing trading technique to help you succeed in an environment vastly transformed by volatility and technology. Universally acclaimed for its sophisticated yet easy-to-execute methods, this practical, results-driven guide provides everything you need to make a lucrative career as a day trader—from preparing yourself psychologically for the unique demands of day trading to timing the market, managing risk, and planning future trades. Mastering the Trade sets aside timeworn basics and rehashed ideas to examine in detail the underlying factors that cause prices to move. Providing the tools you need to make the right decisions at the right times, it helps you enter market shifts early and either pull out before losses accrue or hang on for a long and refreshingly predictable ride. Mastering the Trade covers: The five psychological truths that will transform you from a mistake-prone novice into a savvy trading professional Exact entry, exit, and stop-loss levels for the intraday trading of stocks, options, ETFs, e-mini futures, 30-year bonds, currencies, and more Seven key internals, from \$TICKS to five-minute volume—critical for gauging pending market direction from the opening bell Premarket checklists for analyzing recent market behavior and calculating on each trading day what you plan to do, how you plan to do it, and why Airtight risk control techniques for protecting trading capital—the most important component of a professional trading career After spending many years on various trading desks, Carter has developed an intuitive understanding of how the markets work. In Mastering the Trade, he gives you unlimited access to everything the markets have taught him—so you can make an exceptional living on the frontlines of professional trading.*

## How to Day Trade

## A Detailed Guide to Day Trading Strategies, Risk Management, and Trader Psychology

AuthorHouse Success as a day trader will only come to 10 percent of those who try. It's important to understand why most traders fail so that you can avoid those mistakes. The day traders who lose money in the market are losing because of a failure to either choose the right stocks, manage risk, and find proper entries or follow the rules of a proven strategy. In this book, I will teach you trading

*techniques that I personally use to profit from the market. Before diving into the trading strategies, we will first build your foundation for success as a trader by discussing the two most important skills you can possess. I like to say that a day trader is two things: a hunter of volatility and a manager of risk. I'll explain how to find predictable volatility and how to manage your risk so you can make money and be right only 50 percent of the time. We turn the tables by putting the odds for success in your favor. By picking up this book, you show dedication to improve your trading. This by itself sets you apart from the majority of beginner traders.*

## Market Mind Games: A Radical Psychology of Investing, Trading and Risk

McGraw Hill Professional *Seize the advantage in every trade using your greatest asset—"psychological capital"! When it comes to investing, we're usually taught to "conquer" our emotions. Denise Shull sees it in reverse: We need to use our emotions. Combining her expertise in neuroscience with her extensive trading experience, Shull seeks to help you improve your decision making by navigating the shifting relationships among reason, analysis, emotion, and intuition. This is your "psychological capital"—and it's the key to making decisions calmly and rationally during the heat of trading. Market Mind Games explains the basics of neuroscience in language you understand, which is the first tool you need to manage the emotional ups and downs of the trading. It then provides you with a rock-solid trading system designed to take full advantage of your emotional assets.*

## The Art and Science of Technical Analysis

### Market Structure, Price Action, and Trading Strategies

John Wiley & Sons *A breakthrough trading book that provides powerful insights on profitable technical patterns and strategies The Art and Science of Technical Analysis is a groundbreaking work that bridges the gaps between the academic view of markets, technical analysis, and profitable trading. The book explores why randomness prevails in markets most, but not all, of the time and how technical analysis can be used to capture statistically validated patterns in certain types of market conditions. The belief of the book is that buying and selling pressure causes patterns in prices, but that these technical patterns are only effective in the presence of true buying/selling imbalance. The Art and Science of Technical Analysis is supported by extensive statistical analysis of the markets,*

*which will debunk some tools and patterns such as Fibonacci analysis, and endorse other tools and trade setups. In addition, this reliable resource discusses trader psychology and trader learning curves based on the author's extensive experience as a trader and trainer of traders. Offers serious traders a way to think about market problems, understand their own performance, and help find a more productive path forward Includes extensive research to validate specific money-making patterns and strategies Written by an experienced market practitioner who has trained and worked with many top traders Filled with in-depth insights and practical advice, The Art and Science of Technical Analysis will give you a realistic sense of how markets behave, when and how technical analysis works, and what it really takes to trade successfully.*

## The Mental Game of Trading

# A System for Solving Problems with Greed, Fear, Anger, Confidence and Discipline

*IT Press A step-by-step system for mastering trading psychology. Think about your most costly and recurring trading mistakes. Chances are that they're related to common errors, such as chasing price, cutting winners short, forcing mediocre trades, and overtrading. You've likely tried to fix these errors by improving your technical skills, and yet they persist. That's because the real source of these mistakes is not technical—they actually stem from greed, fear, anger, or problems with confidence and discipline. If you are like most traders, you probably overlook or misunderstand mental and emotional obstacles. Or worse, you might think you know how to manage them, but you don't, and end up losing control at the worst possible time. You're leaving too much money on the table, which will either prevent you from being profitable or realizing your potential. While many trading psychology books offer sound advice, they don't show you how to do the necessary work. That's why you haven't solved the problems hurting your performance. With straight talk and practical solutions, Jared Tendler brings a new voice to trading psychology. In The Mental Game of Trading, he busts myths about emotions, greed, and discipline, and shows you how to look past the obvious to identify the real reasons you're struggling. This book is different from anything else on the market. You'll get a step-by-step system for discovering the cause of your problems and eliminating them once and for all. And through real stories of traders from around the world who have successfully used Tendler's system, you'll learn how to tackle your problems, improve your day-to-day performance, and increase your profits. Whether you're an independent or institutional trader, and regardless of whether you trade equities, forex, or cryptocurrencies, you can use*

*this system to improve your decision-making and execution. Finally, you have a way to reach your potential as a trader. Now's the time to make it happen.*

## One Good Trade

# Inside the Highly Competitive World of Proprietary Trading

*John Wiley & Sons An inside look at what it really takes to become a better trader A proprietary trading firm consists of a group of professionals who trade the capital of the firm. Their income and livelihood is generated solely from their ability to take profits consistently out of the markets. The world of prop trading is mentally and emotionally challenging, but offers substantial rewards to the select few who can master this craft called trading. In One Good Trade: Inside the Highly Competitive World of Proprietary Trading, author Mike Bellafiore shares the principles and techniques that have enabled him to navigate the most challenging of markets over the past twelve years. He explains how he has imparted those techniques to an elite desk of traders at the proprietary trading firm he co-founded. In doing so, he lifts the veil on the inner workings of his firm, shedding light on the challenges of prop trading and insight on why traders succeed or fail. An important contribution to trading literature, the book will help all traders by: Emphasizing the development of skills that are critical to success, such as the fundamentals of One Good Trade, Reading the Tape, and finding Stocks In Play Outlining the factors that really make the difference between a consistently profitable trader and one who underperforms Sharing entertaining, hysterical, and page turning stories of traders who have excelled or failed and why, many trained by the author, with an essential trading principle wrapped inside Becoming a better trader takes discipline, skill development, and statistically profitable trading strategies, and this book will show you how to develop all three.*

## The Super Analysts

# Conversations with the World's Leading Stock Market Investors and Analysts

John Wiley & Sons Incorporated *The Super Analysts Conversations with the World's Leading Stock Market Investors and Analysts* The Super Analysts covers the full spectrum of the world's equities markets and includes interviews with fund managers and analysts from around the globe. This is a book dedicated to understanding how some of the world's top professionals approach the challenge of making money out of stocks, their methods and philosophies. "In Buddhism, sitting at the feet of the master is well understood as the most effective way to learn. Investment professionals have no such mantra and it is unusual for the "stars" to share their experiences and approaches. In this book, Andrew Leeming has interviewed the world's leading investors and analysts to understand how they managed to achieve great success. With the spread of publicly available information-in particular via the Internet-adding value, interpreting and utilising this information is critical in the investment process. These interviews allow the reader to benefit from the experiences of experts and will act as a guide which is as effective as sitting at their feet. This book is insightful and an essential read for all interested in investing." - David Robins Chairman & CEO ING Barings "Andrew Leeming has put together a series of great in-depth interviews with a wide gamut of investors that pose intelligent questions and get intelligent answers. It's a great and easy read for anyone seriously interested in how stock market professionals work day in and day out." - Rob Ferguson Chairman BT Funds Management "In this day of all-star research teams, when short-term performance is sometimes carried to irrational extremes, it's refreshing to hear that some of the best stock-pickers think success boils down to such fundamental issues as discipline, a healthy dose of skepticism, and humility! If you're thinking of a career in financial services, a manager trying to deal with the market's insatiable appetite for information, or, just an average investor, there's a gold mine of common sense in these insightful interviews." - John T. Olds Vice-Chairman and CEO DBS Group Holdings Ltd

## A Practical Introduction to Day Trading

Cambridge Scholars Publishing Many individuals enter financial markets with the objective of earning a profit from capitalizing on price fluctuations. However, many of these new traders lose their money in attempting to do so. The reason for this is often because these new traders lack any fundamental understanding of financial markets, they cannot interpret any data, and they have no strategy for trading. Trading in markets is really about deploying strategies and managing risks. Indeed, successful traders are those

who have strategies which they have proved to be consistent in granting them more financial gains than financial losses. The purpose of this book is to help a potentially uninformed retail trader or inquisitive reader understand more about financial markets, and assist them in gaining the technical skills required to profit from trading. It represents a beginner's guide to trading, with a core focus on stocks and currencies.

## Trade Mindfully

# Achieve Your Optimum Trading Performance with Mindfulness and Cutting-Edge Psychology

*John Wiley & Sons Overcome psychological obstacles to increase trading success Successful traders need to be well-versed and skilled in a wide range of business and economic areas. But now, in addition to effective trading strategies and sound money management techniques, traders need to possess the know-how to handle the mental and emotional challenges of working in a highly volatile environment. Trade Mindfully is a unique resource that applies cutting-edge psychological techniques to trading skills, allowing readers to improve their mental outlooks and maximize the potential of their trading strategies. This book draws upon recent psychological research in behaviorism to teach new approaches that call for better focus, more confidence, and more positive perspectives and outcomes. One of the key concepts covered in the book is mindfulness, a state of mind traditionally touted in the East for its ability to reduce stress and increase perspective, useful qualities for traders looking to rise above emotional obstacles and the poor results they cause. The author also discusses the importance of High Value Trading Actions (HVAs), specific actions that are under a trader's control. With this guide, trading professionals will be able to form solid strategies based on a combination of these notions and practices, leading to higher levels of trading performance. Applies sound psychological practice and evidence-based research to the trading profession Covers the psychological perspectives and mental skills needed to succeed in today's trading world Focuses on key concepts that lead to deliberate practice, specific trading activities, and increased awareness and focus Designed to help traders deal with the emotional challenges that come with uncertainty and risk Trade Mindfully touches on the most essential concepts for anyone intrigued by what trading psychology has to offer, and delivers the best strategies for achieving the right mental skills for peak performance.*

# The New Trading for a Living

## Psychology, Discipline, Trading Tools and Systems, Risk Control, Trade Management

*John Wiley & Sons The best-selling trading book of all time—updated for the new era The New Trading for a Living updates a modern classic, popular worldwide among both private and institutional traders. This revised and expanded edition brings time-tested concepts in gear with today's fast-moving markets, adding new studies and techniques for the modern trader. This classic guide teaches a calm and disciplined approach to the markets. It emphasizes risk management along with self-management and provides clear rules for both. The New Trading for a Living includes templates for rating stock picks, creating trade plans, and rating your own readiness to trade. It provides the knowledge, perspective, and tools for developing your own effective trading system. All charts in this book are new and in full color, with clear comments on rules and techniques. The clarity of this book's language, its practical illustrations and generous sharing of the essential skills have made it a model for the industry—often imitated but never duplicated. Both new and experienced traders will appreciate its insights and the calm, systematic approach to modern markets. The New Trading for a Living will become an even more valuable resource than the author's previous books: Overcome barriers to success and develop stronger discipline Identify asymmetrical market zones, where rewards are higher and risks lower Master money management as you set entries, targets and stops Use a record-keeping system that will make you into your own teacher Successful trading is based on knowledge, focus, and discipline. The New Trading for a Living will lift your trading to a higher level by sharing classic wisdom along with modern market tools.*

## A Flicker in the Dark

## A Novel

Minotaur Books A New York Times Bestseller “A smart, edge-of-your-seat story with plot twists you’ll never see coming. Stacy Willingham’s debut will keep you turning pages long past your bedtime.” —Karin Slaughter *When Chloe Davis* was twelve, six teenage girls went missing in her small Louisiana town. By the end of the summer, her own father had confessed to the crimes and was put away for life, leaving Chloe and the rest of her family to grapple with the truth and try to move forward while dealing with the aftermath. Now twenty years later, Chloe is a psychologist in Baton Rouge and getting ready for her wedding. While she finally has a fragile grasp on the happiness she’s worked so hard to achieve, she sometimes feels as out of control of her own life as the troubled teens who are her patients. So when a local teenage girl goes missing, and then another, that terrifying summer comes crashing back. Is she paranoid, seeing parallels from her past that aren't actually there, or for the second time in her life, is Chloe about to unmask a killer? From debut author Stacy Willingham comes a masterfully done, lyrical thriller, certain to be the launch of an amazing career. *A Flicker in the Dark* is eerily compelling to the very last page.

## Naked Forex

# High-Probability Techniques for Trading Without Indicators

John Wiley & Sons A streamlined and highly effective approach to trading without indicators Most forex traders rely on technical analysis books written for stock, futures, and option traders. However, long before computers and calculators, traders were trading naked. Naked trading is the simplest (and oldest) trading method. It's simply trading without technical indicators, and that is exactly what this book is about. Traders who use standard technical indicators focus on the indicators. Traders using naked trading techniques focus on the price chart. Naked trading is a simple and superior way to trade and is suited to those traders looking to quickly achieve expertise with a trading method. Offers a simpler way for traders to make effective decisions using the price chart Based on coauthor Walter Peters method of trading and managing money almost exclusively without indicators Coauthor Alexander Nekritin is the CEO and President of TradersChoiceFX, one of the largest Forex introducing brokers in the world Naked Forex teaches traders how to profit

*the simple naked way!*

## Mastering Trading Psychology

### Improve Your Trading with Firsthand Reports by Real-Life Traders

*Andrew Aziz describes technology, strategy, and psychology as the three essential pillars of successful trading, and he knows that the psychological aspects of trading are the most likely to be underestimated or even ignored. He wrote Mastering Trading Psychology to help traders enhance their understanding of this crucial pillar of trading and to strengthen their "mental skills" in order to maximize their performance. This practical and highly entertaining book takes its readers inside the minds of ordinary retail traders who contributed more than 175 accounts of their successes, their failures, their joys, their struggles, and, most of all, what they have learned as traders. Some are experienced, but many are relative beginners. They represent an intriguing diversity in terms of where they live, their ages, their levels of education, their everyday jobs, and how they tell their stories. All are members of Andrew's trading community, and their enthusiastic response to his invitation to share their experiences and insights was overwhelming. Complemented by Andrew's explanatory text, the stories are told in the contributors' own words, minimally edited for length, clarity, and privacy.*

## Trade the Trader

### Know Your Competition and Find Your Edge for Profitable Trading

*FT Press "Trade the Trader" is the first book that helps traders understand who they're up against--and beat them. Hedge fund manager Tatro reveals proven strategies for anticipating other traders' moves, outwitting them, and profiting from them.*

# The Daily Trading Coach

## 101 Lessons for Becoming Your Own Trading Psychologist

*John Wiley & Sons Praise for THE DAILY TRADING COACH "A great book! Simply written, motivational with unique content that leads any trader, novice or experienced, along the path of self-coaching. This is by far Dr. Steenbarger's best book and a must-have addition to any trader's bookshelf. I'll certainly be recommending it to all my friends." —Ray Barros CEO, Ray Barros Trading Group "Dr. Steenbarger has been helping traders help themselves for many years. Simply put, this book is a must-read for anyone who desires to achieve great success in the market." —Charles E. Kirk The Kirk Report "'Dr. Brett', as he is affectionately known by his blog readers, has assembled a practical guide to self coaching in this excellent book. The strategies he outlines are further enhanced with numerous resources and exercises for the reader to refer to and keep the principles fresh. I enthusiastically encourage anyone interested in bettering their trading and investing to read this book and keep it on their desk as a constant source of learning." —Brian Shannon, www.alphatrends.net author of Technical Analysis Using Multiple Timeframes "Dr. Brett has distilled his years of experience, as both a trader and a psychologist/coach, into the 101 practical lessons found in The Daily Trading Coach. Those lessons provide effective strategies for coping with the stumbling blocks that traders often face. This book should be a cornerstone of any serious trader's library." —Michael Seneadza equities trader and blogger at TraderMike.net*

# Way of the Turtle: The Secret Methods that Turned Ordinary People into Legendary Traders

# The Secret Methods that Turned Ordinary People into Legendary Traders

McGraw Hill Professional *"We're going to raise traders just like they raise turtles in Singapore." So trading guru Richard Dennis reportedly said to his long-time friend William Eckhardt nearly 25 years ago. What started as a bet about whether great traders were born or made became a legendary trading experiment that, until now, has never been told in its entirety. Way of the Turtle reveals, for the first time, the reasons for the success of the secretive trading system used by the group known as the "Turtles." Top-earning Turtle Curtis Faith lays bare the entire experiment, explaining how it was possible for Dennis and Eckhardt to recruit 23 ordinary people from all walks of life and train them to be extraordinary traders in just two weeks. Only nineteen years old at the time-the youngest Turtle by far-Faith traded the largest account, making more than \$30 million in just over four years. He takes you behind the scenes of the Turtle selection process and behind closed doors where the Turtles learned the lucrative trading strategies that enabled them to earn an average return of over 80 percent per year and profits of more than \$100 million. You'll discover How the Turtles made money-the principles that guided their trading and the step-by-step methods they followed Why, even though they used the same approach, some Turtles were more successful than others How to look beyond the rules as the Turtles implemented them to find core strategies that work for any tradable market How to apply the Turtle Way to your own trades-and in your own life Ways to diversify your trading and limit your exposure to risk Offering his unique perspective on the experience, Faith explains why the Turtle Way works in modern markets, and shares hard-earned wisdom on taking risks, choosing your own path, and learning from your mistakes.*

## Pit Bull

# Lessons from Wall Street's Champion Trad

Harper Collins *Welcome to the world of Martin "Buzzy" Schwartz, Champion Trader--the man whose nerves of steel and killer instinct in the canyons of Wall Street earned him the well-deserved name "Pit Bull." This is the true story of how Schwartz became the best of the best, of the people and places he discovered along the way and of the trader's tricks and techniques he used to make his millions.*

# The Ultimate Price Action Trading Guide

Independently Published *The Ultimate Price Action Trading Guide* is the fastest way to learn how to capture moves in the financial markets. Understand the dynamics of price action trading and give yourself a significant trading advantage. Benefit from years of trading experience. Give yourself an advantage by learning from someone who has experience on a prop desk. Atanas will teach you what you need to know about different types of price action and how to trade it. Not sure where to start? Are you unsure about what it means to trade price action? Or maybe you don't understand how technical indicators work. This book will give your trading clarity. Understand different types of candlesticks and price action patterns so you can reduce your risk and be consistently profitable. Easy to understand explanations of complex topics, this book will demystify price action trading once and for all. From Steve Burns of NewTraderU.com: "Atanas writes about the topics that most traders are interested in, price action and the tools to trade it systematically. His insight on technical indicators, how to identify and trade a trend, and how to visually see chart patterns have been read by tens of thousands of readers. The work and effort Atanas puts into writing and custom illustration is a testament to his passion for trading." About the Author: Atanas Matov a.k.a. Colibri Trader (@priceinaction on Twitter) started his trading career as a retail trader in the early 2000's. After a few years of trading and investing his own funds, he won the KBC stock market challenge and shortly afterwards started working for a leading prop trading house in London. Currently he is trading his own account and trying to help other traders through his trading blog and social media. Major part of Atanas's philosophy is in giving back and helping others achieve their trading goals. In his own words: "Judge your trading success by the things you have given up in order to get where you are now!" Follow Atanas on Twitter @priceinaction [www.colibritrader.com](http://www.colibritrader.com)

## A Complete Guide to Volume Price Analysis

CreateSpace Here in the UK we have a product called Marmite. It is a deeply divisive food, which you either love or hate. Those who love it, cannot understand how anyone could live without it - and of course, the opposite is true for those who hate it! This same sentiment could be applied to volume as a trading indicator. In other words, you are likely to fall into one of two camps. You either believe it works, or you don't. It really is that simple. There is no halfway house here! I make no bones about the fact that I believe I was lucky in starting my own trading journey using volume. To me it just made sense, and the logic of what it revealed was inescapable. And for me, the most powerful reason is very simple. Volume is a rare commodity in trading - a leading indicator. The second, and only other leading indicator, is price. Everything else is lagged. As traders, investors or speculators, all we are trying to do

*is to forecast where the market is heading next. Is there any better way than to use the only two leading indicators we have at our disposal, namely volume and price? In isolation each tells us very little. After all, volume is just that, no more no less. A price is a price. However, combine these two forces together, and the result is a powerful analytical approach to forecasting market direction.. However, as I say at the start of the book, there is nothing new in trading, and the analysis of volume has been around for over 100 years. After all, this is where the iconic traders started. People like Charles Dow, Jesse Livermore, Richard Wyckoff, and Richard Ney. All they had was the ticker tape, from which they read the price, and the number of shares traded. Volume price analysis, short and simple. The book has been written for traders who have never come across this methodology, and for those who have some knowledge, and perhaps wish to learn a little more. It is not revolutionary, or innovative, but just simple sound common sense, combined with logic.*

## Millionaire Traders

# How Everyday People Are Beating Wall Street at Its Own Game

*John Wiley & Sons Trading is a battle between you and the market. And while you might not be a financial professional, that doesn't mean you can't win this battle. Through interviews with twelve ordinary individuals who have worked hard to transform themselves into extraordinary traders, Millionaire Traders reveals how you can beat Wall Street at its own game. Filled with in-depth insights and practical advice, this book introduces you to a dozen successful traders-some who focus on equities, others who deal in futures or foreign exchange-and examines the paths they've taken to capture considerable profits. With this book as your guide, you'll quickly become familiar with a variety of strategies that can be used to make money in today's financial markets. Those that will help you achieve this goal include: Tyrone Ball: trades Nasdaq stocks almost exclusively, and his ability to change with the times has enabled him to prosper during some of the most treacherous market environments in recent history. AShkan Bolour: one of the earliest entrants into the retail forex market, he trades in the direction of the major trend, rather than trying to find reversals. Frank Law: a technician at heart, identifies a trading zone, commits to it, and scales down as long as the zone holds. Paul Willette: has mastered a method that allows him to harvest some profits right away, while ensuring that he can still benefit from an occasional extension run in his favor. Order your copy today and beat the Street.*

# The Psychology of Trading

## Tools and Techniques for Minding the Markets

John Wiley & Sons "The one, only, and by far the best book synthesizing psychology and investing. In addition to providing modern, scientific knowledge about psychology, this book provides a mirror into the mind and wide breadth of knowledge of one of the leading practitioners of brief and effectual cures. Will help to cure your trading and your life." -Victor Niederhoffer, Chief Speculator, Manchester Investments Author, *The Education of a Speculator and Practical Speculation* "How refreshing! A book that rises above the old NLP model of the 80's and provides insights on how our relationship with the market is indeed a very personal one. Not only has Steenbarger provided some fantastic tools for the trader to transform his mindset, but he has contributed unique trading ideas as well. Brilliant!" -Linda Raschke, President, LBRGroup, Inc. "'Investigate, before you invest' was for many years the slogan of the New York Stock Exchange. I always thought a better one would be, 'Investigate YOURSELF, before you invest.' The Psychology of Trading should help you increase your annual investment rate of return. Mandatory reading for anyone intending to earn a livelihood through trading." -Yale Hirsch, The Hirsch Organization Inc., Editor, *The Stock Trader's Almanac* "This highly readable, highly educational, and highly entertaining book will teach you as much about yourself as about trading. It's Oliver Sacks meets Mr. Market-extraordinary tales of ordinary professionals and individuals with investment disorders, and how they successfully overcame them. It is a must-read both for private investors who have been shell-shocked in the bear market and want to learn how to start again, as well as for pros who seek an extra edge from extra inner knowledge. Steenbarger's personal voyage into the mind of the market is destined to become a classic." -Jon Markman, Managing Editor, CNBC on MSN Money Author, *Online Investing and Swing Trading* "Dr. Steenbarger's fascinating, highly readable blend of practical insights from his dual careers as a brilliant psychologist and trader will benefit every investor; knowing oneself is as important as knowing the market." -Laurel Kenner, CNBC.com Columnist, Author, *Practical Speculation*

## The Taylor Trading Technique

Seven Star Publishing *This high-quality reissue of The Taylor Trading Technique contains the same time-honored information it did when it was first published in 1950. Taylor's "Book Method" of trading is based on his insights about the repetition of grain market cycles but applies to the financial futures market and others as well. By identifying moves in the market that might fool less-savvy traders into buying or selling at the wrong time, Taylor's system protects against pitfalls while giving you an edge over other traders. Taylor breaks down market movements into three-day cycles comprising a Buy Day, a Sell Day, and a Sell Short Day. These classifications are used to keep tabs on a market's rhythm and identify the ideal moments at which you should enter and exit. This book will help you understand the ways the market fluctuates and develops, so you can create and apply a plan for how best to trade in it. Combined with a bit of practice and a willingness to learn and experiment, The Taylor Trading Technique will arm you with a strong system for swing trading in financial futures.*

## High-Probability Trading

McGraw Hill Professional *A common denominator among most new traders is that, within six months of launching their new pursuit, they are out of money and out of trading. High-Probability Trading softens the impact of this "trader's tuition," detailing a*

Tharp has produced a powerful manual every trader can use to make the best trades and optimize their success.*

## The PlayBook

### An Inside Look at How to Think Like a Professional

# Trader

FT Press *Want to become a truly great trader – either for yourself or for a proprietary trading firm? This book will help you get there. This unique approach is the closest thing to signing up for a “trader boot camp” yourself! You’ll learn by watching new traders walk through actual trades, explain what they’ve tried to do, and try to survive brutally tough expert critiques. One trade at a time, The Playbook reveals how professional traders must think in order to succeed “under fire,” how they assess their own performance, and how they work relentlessly to improve. Using concrete, actionable setups drawn from his extensive trading and training experience, Bellafiore walks through an extraordinary array of trades, showing readers how to maximize profits and avoid disastrous hidden pitfalls. He covers support plays, bull-and-bear flags, opening drives, important intraday levels, bounce and fade trades, pullbacks, scalps, technical opportunities, consolidation, relative strength, market trades, and more. He also presents indispensable insights on psychology and trader development, based on his work with hundreds of traders on a major commodity exchange and an elite prop firm’s trading desk. Packed with color, personality, and realism, this is an exciting guide to real-world trading.*

# Fibonacci Trading: How to Master the Time and Price Advantage

*McGraw Hill Professional Made famous by the Italian mathematician Leonardo De Pisa, the Fibonacci number series holds a Golden Ratio that is universally found in nature and used by architects, plastic surgeons, and many others to achieve "perfect" aesthetic proportions. Now, in this groundbreaking guide, noted technical trading advisor Carolyn Boroden shows you how Fibonacci pattern studies can be used as an extremely effective method for achieving greater profitability in stocks, futures, and Forex markets. Fibonacci Trading provides a one-stop resource of reliable tools and clear explanations for both identifying and taking advantage of the trade setups naturally occurring in the markets that will enable you to reach the highest rate of profitable trades. Inside, you'll find a unique trading methodology based on Fibonacci ratios, and the author's personal experience analyzing and setting up the markets in real time, which makes this practical volume invaluable to the self-directed investor. Complete with detailed charts and insightful graphics in each chapter, Fibonacci Trading features: Dependable guidance for determining important support and resistance levels, along with expert advice for using them to maximize profits and limit losses Step-by-step processes for using Fibonacci analysis to predict turning points in the market far enough in advance to generate substantial profit Valuable tips for using Fibonacci analysis to establish optimal stop-loss placement Revealing coverage on how Fibonacci relationships can create a roadmap for the trader based on high percentage patterns Fibonacci Trading also provides a four-step formula for applying the covered techniques in a highly effective approach. Flexible enough for all markets and trading styles, the formula helps you focus your newly developed knowledge and skill sets into a solid trading methodology, defined trading plan, successful trading mindset, and disciplined trading approach that stacks the odds for profit in your favor. This hands-on guide is packed with a wealth of actual trading situations, setups, and scenarios that bring the four-step formula to life so you can immediately use it in the real world.*

# Trading in the Shadow of the Smart Money

Tradeguide Systems International In "Trading in the Shadow of the Smart Money" Gavin discusses why market manipulation is actually a good thing for traders and investors who can read the chart correctly based on universal laws. All markets work because they are governed by three universal laws, which are the law of supply and demand, the law of cause and effect and the law of effort versus result. To make money in life there is a fourth and very important law, the law of attraction, and for the first time in any book on trading that we are aware of Gavin unlocks the key to success in trading and investing in the markets: BELIEF in your human ability to make money and in your system to read charts. The book gives actual trade set ups taught to Gavin by Tom Williams and gives over 50 annotated color charts explaining the VSA principles bar by bar.
