TRADING OPERATIVO SUL FOREX. LE STRATEGIE VINCENTI PER GUADAGNARE SUL MERCATO DEI CAMBI

TRADING OPERATIVO SUL FOREX

LE STRATEGIE VINCENTI PER GUADAGNARE SUL MERCATO DEI CAMBI

HOEPLI EDITORE Questo libro è una guida indispensabile per comprendere il funzionamento e il comportamento del Forex, mercato sul quale vengono scambiate, 24 ore su 24, le valute di tutto il mondo. Nella parte iniziale sono descritte le caratteristiche di questo mercato (Over The Counter) per poi passare a un'analisi più operativa, individuando le variabili macroeconomiche che condizionano il comportamento dei cambi e le correlazioni esistenti tra le diverse valute. Il volume si concentra sulle metodologie proprie dell'Analisi Tecnica (Analisi Tecnica di Base, Oscillatori, Medie Mobili, Candele Giapponesi, Onde di Elliott, Analisi Tecnica Avanzata, Money Management), spiegando come studiare il comportamento passato dei prezzi, sia a livello giornaliero sia a livello intraday, per cercare di anticiparne le future evoluzioni. Scritto con stile chiaro e adatto a tutti, il testo è di facile lettura anche per i meno esperti sull'argomento, grazie ai numerosi esempi tratti dall'operatività giornaliera dell'autore e alla costruzione di semplici ma valide strategie sui principali cross valutari.

L'ARTE DEL TRADING

LE STRATEGIE VINCENTI DI UN PROFESSIONISTA DEGLI INVESTIMENTI

HOEPLI EDITORE Il libro è indirizzato all'investitore che vuole operare con successo sui diversi mercati finanziari (Forex, azionari, future, materie prime). L'autore illustra il percorso formativo che va seguito al fine di poter costruire valide strategie operative per il trading di breve/medio termine, soffermandosi sia sugli aspetti tecnici (la scelta del broker, l'utilizzo di un'adeguata piattaforma di trading, la conoscenza dei fondamenti legati all'analisi tecnica) sia sugli aspetti psicologici, spiegando i vari errori che spesso vengono commessi e le soluzioni da attuare. Nella parte centrale sono proposte diverse tecniche di trading che si fondano sull'utilizzo della parte grafica combinata con i segnali forniti da alcuni oscillatori tecnici di momentum, che mirano a individuare il trend di breve termine seguito dalle diverse attività finanziarie e a indicare i segnali operativi di trading. L'opera fornisce inoltre le indicazioni provenienti dall'esame dei volumi che consentono di quantificare la consistenza dei vari movimenti compiuti dai prezzi. Le strategie di trading descritte sono utilizzabili sia dal trader esperto, alla ricerca di nuovi spunti operativi che possano consentirgli di migliorare i propri risultati, sia dal neofita, che vuole invece acquisire una tecnica completa di analisi dei grafici per impostare una profittevole attività di trading. La parte finale contiene poi numerosi esempi pratici, tratti dall'esperienza reale dell'autore, che consentono di veder applicate le varie metodologie avanzate descritte all'interno del libro.

INVESTIRE CON LE OBBLIGAZIONI

CONOSCERE GLI STRUMENTI E VALUTARE I RISCHI

HOEPLI EDITORE Il libro costituisce una guida completa per conoscere i concetti base e i rischi legati al mondo obbligazionario: una descrizione semplice, chiara e intuitiva delle caratteristiche dei titoli obbligazionari, con una attenta esplorazione delle varie tipologie. Gli autori offrono un panorama esaustivo per comprendere i fattori macroeconomici e microeconomici che influenzano il movimento dei prezzi, gettando le basi per un utilizzo efficace di tali fattori per poi scegliere le emissioni più adatte al proprio profilo di rischio. Il lettore è così guidato nella scoperta dei vari tipi di rischi che si corrono quando si investe nei bond, comprendendo come beneficiare al meglio dell'asset class. Il libro risulta adatto sia per un pubblico specializzato (anche accademico), per corsi economico-finanziari e per corsi di specializzazione/master, sia per un pubblico non specializzato, curioso di ampliare le proprie conoscenze nel mondo degli investimenti.

THE EVALUATION AND OPTIMIZATION OF TRADING STRATEGIES

John Wiley & Sons A newly expanded and updated edition of the trading classic, Design, Testing, and Optimization of Trading Systems Trading systems expert Robert Pardo is back, and in The Evaluation and Optimization of Trading Strategies, a thoroughly revised and updated edition of his classic text Design, Testing, and Optimization of Trading Systems, he reveals how he has perfected the programming and testing of trading systems using a successful battery of his own time-proven techniques. With this book, Pardo delivers important information to readers, from the design of workable trading strategies to measuring issues like profit and risk. Written in a straightforward and accessible style, this detailed guide presents traders with a way to develop and verify their trading strategy no matter what form they are currently using—stochastics, moving averages, chart patterns, RSI, or breakout methods. Whether a trader is seeking to enhance their profit or just getting started in testing, The Evaluation and Optimization of Trading Strategies offers practical instruction and expert advice on the development, evaluation, and application of winning mechanical trading systems.

LONG-TERM SECRETS TO SHORT-TERM TRADING

John Wiley & Sons Hugely popular market guru updates his popular trading strategy for a post-crisis world From Larry Williams—one of the most popular and respected technical analysts of the past four decades—Long-Term Secrets to Short-Term Trading, Second Edition provides the blueprint necessary for sound and profitable short-term trading in a post-market meltdown economy. In this updated edition of the evergreen trading book, Williams shares his years of experience as a highly successful short-term trader, while highlighting the advantages and disadvantages of what can be a very fruitful yet potentially dangerous endeavor. Offers market wisdom on a wide range of topics, including chaos, speculation, volatility breakouts, and profit patterns Explains fundamentals such as how the market moves, the three most dominant cycles, when to exit a trade, and how to hold on to winners Includes in-depth analysis of the most effective short-term trading strategies, as well as the author's winning technical indicators Short-term trading offers tremendous upside. At the same time, the practice is also extremely risky. Minimize your risk and maximize your opportunities for success with Larry Williams's Long-Term Secrets to Short-Term Trading, Second Edition.

STRATEGIE OPERATIVE PER I MERCATI FINANZIARI

TRADING DI BREVE TERMINE SU AZIONI, INDICI E FOREX

HOEPLI EDITORE Il movimento ciclico seguito dai diversi mercati finanziari, le situazioni operative più interessanti, le tecniche di swing trading combinate con l'analisi dei volumi. Questi sono i principali argomenti descritti all'interno di un volume che esamina le quattro fasi principali di riferimento (accumulazione, trend rialzista, distribuzione, trend ribassista) utili a costruire valide strategie operative per il trading di breve termine. Il libro illustra le basi dello swing trading e i fattori che incidono sulla struttura grafica dell'attività finanziaria oggetto di analisi, come la velocità con la quale i prezzi stanno salendo/scendendo, la distanza tra i prezzi massimi/minimi registrati nel corso di un certo arco temporale e la durata dei vari movimenti. La parte quantitativa viene utilizzata sia per individuare eventuali compressioni di volatilità (situazione che spesso anticipa l'inizio di un movimento impulsivo) sia per misurare la forza del trend seguito dai prezzi. I capitoli finali esaminano le tecniche operative basate sullo studio dei volumi (Volume Profile), volte a individuare le più importanti aree di supporto e di resistenza, e descrivono la costruzione di alcuni screening automatici che consentono di analizzare il quadro tecnico delle varie attività finanziarie. Alla fine dei capitoli più importanti sono riportati alcuni esempi operativi tratti dai diversi mercati finanziari (azionari, valutari, materie prime, obbligazionari).

SYNERGISTIC TRADING

STRATEGY COMBINATIONS FOR PROFITABLE TRADING

- Provides the fundamental skills to operate in the financial markets with thoughtfulness and professionalism. - It is a solid and essential guide to understand the value of combining various trading strategies to generate profit. - It aims at giving the trader a different view of online trading, not focused solely on technical analysis but ready to range across the entire online trading universe. - Full of useful examples, it becomes a complete guide to the various investment techniques for the reader - Written with clarity and clearness, the text is easy to read even for the less experienced ones

THE WARREN BUFFETT WAY

John Wiley & Sons Warren Buffett is the most famous investor of all time and one of today's most admired business leaders. He became a billionaire and investment sage by looking

at companies as businesses rather than prices on a stock screen. The first two editions of The Warren Buffett Way gave investors their first in-depth look at the innovative investment and business strategies behind Buffett's spectacular success. The new edition updates readers on the latest investments by Buffett. And, more importantly, it draws on the new field of behavioral finance to explain how investors can overcome the common obstacles that prevent them from investing like Buffett. New material includes: How to think like a long-term investor - just like Buffett Why "loss aversion", the tendency of most investors to overweight the pain of losing money, is one of the biggest obstacles that investors must overcome. Why behaving rationally in the face of the ups and downs of the market has been the key to Buffett's investing success Analysis of Buffett's recent acquisition of H.J. Heinz and his investment in IBM stock The greatest challenge to emulating Buffett is not in the selection of the right stocks, Hagstrom writes, but in having the fortitude to stick with sound investments in the face of economic and market uncertainty. The new edition explains the psychological foundations of Buffett's approach, thus giving readers the best roadmap yet for mastering both the principles and behaviors that have made Buffett the greatest investor of our generation.

MANUALE DI TRADING ONLINE PER PRINCIPIANTI

COME DIVENTARE UN TRADER VINCENTE E GUADAGNARE CON AZIONI, FOREX, CRIPTOVALUTE, INDICI ED ETF

HOW2 Edizioni Questo Manuale di Trading Online si rivolge agli aspiranti trader e ai trader principianti, che vogliono migliorare i propri risultati finanziari e ottenere maggiore successo sui mercati. È una Guida al Trading Online veramente ADATTA A TUTTI: SEMPLICE DA CONSULTARE e comprendere ma al contempo esaustiva, ricca di esempi e studiata per essere PRATICA E OPERATIVA al massimo. La teoria è ridotta all'essenziale e, invece, ampio spazio è dedicato alla parte applicativa, con indicazioni illustrate passo per passo. A differenza di quanto molti promettono, fare soldi con il Trading Online non è facile. Secondo statistiche ufficiali, meno del 10% dei trader ottengono buoni risultati. Beh, questo manuale è stato pensato e realizzato proprio per far sì che tu stesso, caro lettore, possa rientrare nella ristretta élite dei Trader di Successo. Da autore di questo libro, ho consultato molte guide al trading, italiane e straniere ma devo dirti, con la massima franchezza, che sono sempre rimasto piuttosto deluso, in quanto le ho sempre trovate o troppo difficili o troppo poco pratiche, per non dire addirittura eccessivamente fumose e piene di fuffa. Così ho deciso di scrivere questo manuale, nato proprio per rispondere alle esigenze dei neofiti, i quali non hanno bisogno di imparare tutte le formule dell'alta finanza ma vogliono solo apprendere i trucchi pratici del Mestiere del Trader, per applicarli subito e guadagnare, senza rischiare di perdere inutilmente tempo e soldi. COSA IMPARERARI LEGGENDO QUESTO LIBRO: . Come fare Trading con le AZIONI . Come fare Trading con BITCOIN e CRIPTOVALUTE . Come fare Trading con il FOREX . Come fare Trading con COMMODITIES, INDICI ed ETF . Come sfruttare gli strumenti STOP LOSS e TAKE PROFIT . Come Minimizzare le Perdite e Ottimizzare i Profitti . Come evitare Costi Nascosti, ROLLOVER e OVERNIGHT . Come applicare una STRATEGIA SHORT-TERM . Come applicare una STRATEGIA LONG-TERM . Come fare POSITION TRADING . Come fare DAY TRADING . Come fare SWING TRADING . Come SCALPING . Come fare COPY TRADING . Come sfruttare il SOCIAL TRADING . Come fare TRADING AUTOMATICO . Come evitare i RISCHI DEL TRADING . I Segreti del Successo dei Trader Vincenti . Come fare un PIANO OPERATIVO DI TRADING . Quali sono le basi dell'ANALISI TECNICA . Come si leggono e analizzano i GRAFICI . Come individuare i TREND BULLISH E BEARISH . Come individuare e sfruttare i PATTERN . Come applicare il METODO DEI TRIANGOLI . Come sfruttare ANALISI E NEWS FINANZIARIE E molto molto!

TRADING ONLINE FOR DUMMIES

HOEPLI EDITORE Scopri come operare in Borsa in piena libertà! Questo manuale accompagna il lettore che intende avvicinarsi al mondo del trading online partendo dalle basi e dai concetti più semplici: quali obiettivi si vogliono raggiungere col trading, quali strumenti hardware e software sono necessari, quali sono i rischi dell'investimento fai-da-te, quanti soldi usare, come prepararsi anche psicologicamente all'operatività. Partire dalle basi. Le conoscenze di analisi tecnica che si devono acquisire per poter operare sui mercati finanziari e le dotazioni hardware/software necessarie per fare trading. I broker e le piattaforme. La scelta dell'intermediario e del mercato: due decisioni fondamentali per poter ottenere risultati positivi sui mercati. Le strategie operative. Le varie tipologie di ordini che si possono inserire all'interno delle piattaforme messe a disposizione dai broker e i profili commissionali. Investire sulla formazione. I corsi, i libri, le riviste e le conferenze che possono aiutare il trader nel suo processo di crescita. I servizi dati. I provider che forniscono informazioni e prezzi, le due risorse necessarie al trader per poter analizzare il comportamento dei mercati finanziari. Le piattaforme di analisi e quelle operative. Gli errori da non commettere. I dieci errori più comuni del trader neofita, i dieci consigli d'oro e la regola aurea: studiare e prepararsi bene prima di fare trading. In questo libro: Perché fare trading online; Il capitale iniziale a quanto può ammontare?; I mercati finanziari e i vari circuiti; I migliori strumenti finanziari; Le regole del trading; Condividere le esperienze: il social trading.

LA MENTE DEL TRADER

TRADING VINCENTE SENZA FARSÌ CONDIZIONARE DALLE EMOZIONI

HOEPLI EDITORE Il libro costituisce una guida indispensabile per comprendere il comportamento dei mercati finanziari sia da un punto di vista operativo sia da un punto di vista psicologico. L'autore descrive le varie situazioni mentali (timore, paura, ansia, cautela, ottimismo, euforia, esaltazione) nelle quali ogni investitore si può trovare e che possono incidere sulle sue scelte operative. La prima parte del testo evidenzia come la mente umana si relaziona con i soldi e con gli investimenti in generale. In particolare, sono descritti i vari passaggi psicologici che si verificano prima, durante e dopo ogni operazione. Vengono quindi illustrate nel dettaglio alcune strategie mentali che possono essere adottate per impostare una profittevole attività di trading. Nella parte centrale del libro sono approfondite le principali tecniche operative fornite dall'Analisi Tecnica, analizzate sotto l'aspetto psicologico e tecnico. Viene presa in considerazione l'analisi dettagliata dei pattern grafici ottenuti con le candele giapponesi, dei movimenti di mercato identificati con le onde di Elliott e delle indicazioni fornite dai principali indicatori quantitativi. L'obiettivo è quello di evidenziare quali sono state le dinamiche e le forze di mercato che hanno creato una certa situazione e come l'investitore può sfruttarla a suo vantaggio. Con l'aiuto dell'analisi dei volumi e di alcuni schemi pratici si descrivono inoltre numerosi casi pratici reali, tratti dall'esperienza personale dell'autore. Sotto questo punto di vista vengono fornite alcune strategie mentali che possono essere utilizzate per impostare una profittevole attività di trading.

TECHNICAL ANALYSIS OF THE FINANCIAL MARKETS

A COMPREHENSIVE GUIDE TO TRADING METHODS AND APPLICATIONS

Penguin John J. Murphy has updated his landmark bestseller Technical Analysis of the Futures Markets, to include all of the financial markets. This outstanding reference has already taught thousands of traders the concepts of technical analysis and their application in the futures and stock markets. Covering the latest developments in computer technology, technical tools, and indicators, the second edition features new material on candlestick charting, intermarket relationships, stocks and stock rotation, plus state-of-the-art examples and figures. From how to read charts to understanding indicators and the crucial role technical analysis plays in investing, readers gain a thorough and accessible overview of the field of technical analysis, with a special emphasis on futures markets. Revised and expanded for the demands of today's financial world, this book is essential reading for anyone interested in tracking and analyzing market behavior.

BETTING EXCHANGE - THE SPORTS TRADING REVOLUTION

Gianluca Landi The Betting Exchange is a new investment opportunity for traders and advanced bettors who want to do sports trading and scalping or simply place classic bets, but with the opportunity to drop out at any time through the cash out option. This book explains in a simple but in-depth and exhaustive way all you need to know about the Betting Exchange world-wide, allowing anyone, novices and experts, after careful reading, to start operating successfully in this field. There are chapters dedicated to money management, psychology, sports trading, scalping and the most profitable strategies. There are examples of real bets and practical explanations of the most effective tools such as Betpractice, the tool for calculating the real odds. This book also protects copyright and the "continuous theft of material" on the sites of www.bettingexchange.net network. The preface is by Massimiliano Bancora, former Country Manager at Betfair Italia.

THE ART OF CURRENCY TRADING

A PROFESSIONAL'S GUIDE TO THE FOREIGN EXCHANGE MARKET

John Wiley & Sons Now you can master the art of foreign exchange trading While most currency trading and foreign exchange books focus on international finance theory or simplistic chart-based strategies, The Art of Currency Trading is a comprehensive guide that will teach you how to profitably trade currencies in the real world. Author Brent Donnelly has been a successful interbank FX trader for more than 20 years and in this book, he shares the specific strategies and tactics he has used to profit in the forex marketplace. The book helps investors understand and master foreign exchange trading in order to achieve sustainable long-term financial success. The book builds in intensity and depth one topic at a time, starting with the basics and moving on to intermediate then advanced setups and strategies. Whether you are new to currency trading or have years of experience, The Art of Currency Trading provides the information you need to learn to trade like an expert. This much-needed guide provides: an insider's view of what drives currency price movements; a clear explanation of how to combine macro fundamentals, technical analysis, behavioral finance and diligent risk management to trade successfully; specific techniques and setups you can use to make money trading foreign exchange; and steps you can take to better understand yourself and improve your trading psychology and discipline. Written for currency traders of all skill levels, international stock and bond investors, corporate treasurers, commodity traders, and asset managers, The Art of Currency Trading offers a comprehensive guide to foreign exchange trading written by a noted expert in the field.

TRATTATO DI MONEY MANAGEMENT

LA GESTIONE PROFESSIONALE DEL RISCHIO

HOEPLI EDITORE Il libro descrive le varie metodologie operative utilizzate da trader e investitori professionali per calcolare, nel modo più oggettivo possibile, il position-sizing, ossia quanta parte del proprio capitale può essere impiegata nelle singole operazioni. Il Money Management costituisce un aspetto fondamentale per la gestione del rischio a cui ci si espone quando si opera sui diversi mercati finanziari. La maggior parte degli operatori, infatti, si concentra sull'individuazione dei set-up operativi (livelli di ingresso, stop-loss, take

profit, trailing-stop) e non considera l'impatto, molto spesso decisivo, che un corretto Money Management potrebbe avere sui risultati finali della propria operatività. I trader di successo si focalizzano sulla gestione del rischio, evitando di aprire posizioni troppo consistenti rispetto al capitale totale che hanno a disposizione. Ricco di esempi pratici, il Trattato di Money Management è una guida completa alle varie tecniche d'investimento, di cui illustra pregi e difetti. Si coprono diversi modelli operativi, in particolare il Fixed Fractional Method, il Fixed Ratio e il Percent Volatility Model. Per la gestione dei portafogli sono invece analizzati il Core Equity Model, il Total Equity Model e il Reduced Total Equity Model. Nella parte finale del libro l'autore offre alcuni suggerimenti utili per la costruzione e la progettazione di un trading system, per l'operatività sul Forex e per la scelta del broker più adatto alle esigenze di ogni trader.

CONTROLLED TRADING

FOREX TRADING USING INTERMARKET ANALYSIS

Market Technologies In today's global marketplace, currency values fluctuate every day and foreign exchange is the biggest market of them all, trading well over \$1 trillion a day--more than all other markets combined! Master this market that never sleeps, and you could be a big winner. Just to survive in the hottest marketplace in the world, you will have to learn how to stay one step ahead of the game. This book is intended for traders and investors who use technology to win.

THE FOUR PILLARS OF INVESTING: LESSONS FOR BUILDING A WINNING PORTFOLIO

LESSONS FOR BUILDING A WINNING PORTFOLIO

McGraw Hill Professional The classic guide to constructing a solid portfolio—without a financial advisor! “With relatively little effort, you can design and assemble an investment portfolio that, because of its wide diversification and minimal expenses, will prove superior to the most professionally managed accounts. Great intelligence and good luck are not required.” William Bernstein's commonsense approach to portfolio construction has served investors well during the past turbulent decade—and it's what made The Four Pillars of Investing an instant classic when it was first published nearly a decade ago. This down-to-earth book lays out in easy-to-understand prose the four essential topics that every investor must master: the relationship of risk and reward, the history of the market, the psychology of the investor and the market, and the folly of taking financial advice from investment salespeople. Bernstein pulls back the curtain to reveal what really goes on in today's financial industry as he outlines a simple program for building wealth while controlling risk. Straightforward in its presentation and generous in its real-life examples, The Four Pillars of Investing presents a no-nonsense discussion of: The art and science of mixing different asset classes into an effective blend The dangers of actively picking stocks, as opposed to investing in the whole market Behavioral finance and how state of mind can adversely affect decision making Reasons the mutual fund and brokerage industries, rather than your partners, are often your most direct competitors Strategies for managing all of your assets—savings, 401(k)s, home equity—as one portfolio Investing is not a destination. It is a journey, and along the way are stockbrokers, journalists, and mutual fund companies whose interests are diametrically opposed to yours. More relevant today than ever, The Four Pillars of Investing shows you how to determine your own financial direction and assemble an investment program with the sole goal of building long-term wealth for you and your family.

OPTIONS, FUTURES AND OTHER DERIVATIVES

ONE UP ON WALL STREET

HOW TO USE WHAT YOU ALREADY KNOW TO MAKE MONEY IN THE MARKET

Simon and Schuster The manager of a top investment fund discusses how individuals can make a killing in the market through research and investment techniques that confound conventional market wisdom.

GUADAGNARE CON IL FOREX

Youcanprint Nicola Fiorito, libero professionista nel settore consulenza e assistenza aziendale, bancario e finanziario. Amministratore della Fiorito & Partners srl. Trader indipendente, per hobby. Questo manuale è pensato per chi, per la prima volta, voglia avvicinarsi al trading on line e al Forex comprendendo le difficoltà di fronte a testi fortemente tecnici e di difficile utilizzo. E' un manuale molto semplice e chiaro ma, nello stesso tempo esaustivo, dandoti solo quegli strumenti che servono per farti ottenere in poco tempo dei buoni guadagni. Usa pertanto un linguaggio e espressioni comprensibili a tutti per non rendere il trading più complicato del necessario, limita le espressioni trading di "tendenza", alla "moda" o altrimenti incomprensibili, anche se queste esistono.

THE STEVE JOBS WAY

LEADERSHIP FOR A NEW GENERATION

Vanguard The former Senior Vice President of Apple Computer and close colleague of Steve Jobs's throughout his tenure, Jay Elliot takes readers on a remarkable tour through Jobs's astonishing career. From the inception of game-changing products like the Apple II and the Macintosh, to his stunning fall from grace, and on to his rebirth at the helm of Apple, his involvement with Pixar, and the development of the iPod, iPhone, iPad, and much more, The Steve Jobs Way presents real-life examples of Jobs's leadership challenges and triumphs, showing readers how to apply these principles to their own lives and careers. Packed with exclusive interviews from key figures in Apple Computer's history, this revealing account provides a rarely seen, intimate glimpse into the Steve Jobs you won't see on stage, thoroughly exploring his management and leadership principles. From product development meetings to design labs, through executive boardroom showdowns to the world outside of Silicon Valley, readers will see the real Steve Jobs, the "Boy Genius" who forever transformed technology and the way we work, play, consume, and communicate--all through the eyes of someone who worked side by side with Jobs. Written in partnership with William L. Simon, coauthor of the bestselling Jobs biography iCon, The Steve Jobs Way is the "how to be like Steve" book that readers have been waiting for.

WAY OF THE TRADE

TACTICAL APPLICATIONS OF UNDERGROUND TRADING METHODS FOR TRADERS AND INVESTORS

John Wiley & Sons Praise for Way of the Trade + Online Video Course "Jea Yu's Way of the Trade offers serious traders a comprehensive and compelling approach to short-term trading. Jea writes in a reader-friendly style, connecting market realities with sound trading techniques and risk management strategies. If you are dedicated to succeeding in the trading world, Way of the Trade belongs on your bookshelf." —Toni Turner, President, TrendStar Trading Group, Inc.; author of A Beginner's Guide to Day Trading Online and Invest to Win: Earn and Keep Profits in Bull and Bear Markets with the GainsMaster Approach "In his new book, Way of the Trade, Jea Yu does a great job explaining market truths and delivering the tools helpful for profitable trading. There is so much valuable information in this book, but the section on 'The 5 Laws of the Marketplace' alone is worth the price of this book. A must-read for the serious trader!" —Bennett A. McDowell, President, TradersCoach.com, and author of The ART® of Trading, A Trader's Money Management System, and Survival Guide for Traders "Jea Yu's powerful new book offers a wide range of tools, strategies, and insights to help traders at all experience levels. Combining his unique market methodology with high-powered tape-reading techniques, Yu's well-written narrative presents serious-minded readers with a detailed road map to short-term profits." —Alan Farley, Editor/Publisher, Hard Right Edge "Jea is like the Kevin Smith of trading. His knowledge and historical perspective are rivaled only by his passion for the business. From X-Men comics to Bloomberg stock pickers, Jea takes you on a journey through the culture and mind of a Wall Street trader." —Jeremy Frommer, CEO, Jerrick Ventures; former CEO of Carlin Financial Group; former Head of Global Prime Services, Royal Bank of Canada "Jea Yu's latest masterpiece, Way of the Trade, illuminates a path of trading success appropriate for new hopeful traders and veterans alike. Way of the Trade encapsulates the strategic wisdom of Sun Tzu with the modern street smarts of a market master. Skillful use of trading examples, along with lessons of individuals who beat seemingly impregnable odds, make Way of the Trade incredibly difficult to put down and impossible not to learn from." —Robert Weinstein, TheStreet.com contributor, founder of Paid2Trade.com, and full-time trader

LEARN TO EARN

A BEGINNER'S GUIDE TO THE BASICS OF INVESTING AND

Simon and Schuster Mutual-fund superstar Peter Lynch and author John Rothchild explain the basic principles of the stock market and business in an investing guide that will enlighten and entertain anyone who is high-school age or older. Many investors, including some with substantial portfolios, have only the sketchiest idea of how the stock market works. The reason, say Lynch and Rothchild, is that the basics of investing—the fundamentals of our economic system and what they have to do with the stock market—aren't taught in school. At a time when individuals have to make important decisions about saving for college and 401(k) retirement funds, this failure to provide a basic education in investing can have tragic consequences. For those who know what to look for, investment opportunities are everywhere. The average high-school student is familiar with Nike, Reebok, McDonald's, the Gap, and the Body Shop. Nearly every teenager in America drinks Coke or Pepsi, but only a very few own shares in either company or even understand how to buy them. Every student studies American history, but few realize that our country was settled by European colonists financed by public companies in England and Holland—and the basic principles behind public companies haven't changed in more than three hundred years. In Learn to Earn, Lynch and Rothchild explain in a style accessible to anyone who is high-school age or older how to read a stock table in the daily newspaper, how to understand a company annual report, and why everyone should pay attention to the stock market. They explain not only how to invest, but also how to think like an investor.

LOGIC FOR DUMMIES

John Wiley & Sons Logic concepts are more mainstream than you may realize. There's logic every place you look and in almost everything you do, from deciding which shirt to buy to asking your boss for a raise, and even to watching television, where themes of such shows as CSI and Numbers incorporate a variety of logistical studies. Logic For Dummies explains a vast array of logical concepts and processes in easy-to-understand language that make everything clear to you, whether you're a college student or a student of life. You'll find out about: Formal Logic Syllogisms Constructing proofs and refutations Propositional and predicate logic Modal and fuzzy logic Symbolic logic Deductive and inductive reasoning Logic For Dummies tracks an introductory logic course at the college level. Concrete, real-world examples help you understand each concept you encounter, while fully worked out proofs and fun logic problems encourage you students to apply what you've learned.

A MATHEMATICIAN PLAYS THE STOCK MARKET

Basic Books Can a renowned mathematician successfully outwit the stock market? Not when his biggest investment is WorldCom. In A Mathematician Plays the Stock Market, best-selling author John Allen Paulos employs his trademark stories, vignettes, paradoxes, and puzzles to address every thinking reader's curiosity about the market -- Is it efficient? Is it random? Is there anything to technical analysis, fundamental analysis, and other supposedly time-tested methods of picking stocks? How can one quantify risk? What are the most common scams? Are there any approaches to investing that truly outperform the major indexes? But Paulos's tour through the irrational exuberance of market mathematics doesn't end there. An unrequited (and financially disastrous) love affair with WorldCom leads Paulos to question some cherished ideas of personal finance. He explains why "data mining" is a self-fulfilling belief, why "momentum investing" is nothing more than herd behavior with a lot of mathematical jargon added, why the ever-popular Elliot Wave Theory cannot be correct, and why you should take Warren Buffet's "fundamental analysis" with a grain of salt. Like Burton Malkiel's A Random Walk Down Wall Street, this clever and illuminating book is for anyone, investor or not, who follows the markets -- or knows someone who does.

STAN WEINSTEIN'S SECRETS FOR PROFITING IN BULL AND BEAR MARKETS

TRADING IN OIL FUTURES

THE INTERNATIONAL TRADING SYSTEM

Routledge The World Trade Organization (WTO) is without doubt one of our main instruments of globalization, the controversy which is whipped up by this organization is arguably mainly caused by the mystery which surrounds it. The International Trade System seeks to remove the clouds of misunderstanding that circle the multilateral commercial system by clearly describing and explaining the processes, conventions and rules around which world trade functions. The latest developments in the international trade system can be understood with more clarity thanks to this book, academics and students involved with international economics, finance and business will find this to be an impressive read.

HOW TO MAKE PROFITS TRADING IN COMMODITIES

A STUDY OF THE COMMODITY MARKET, WITH CHARTS AND RULES FOR SUCCESSFUL TRADING AND INVESTING

Pickle Partners Publishing W. D. Gann's justly famous work on the trading of commodities. "I am writing this book to supply a universal demand: and give rules that will forecast the trend of commodities. Conditions have changed rapidly during the last few years and will change more rapidly after this great war is over than ever before in history. Men will return to the soil of Mother Nature to make a living. Investors and speculators will have to look for new ways to make money in the future and will find it more difficult in the stock market; therefore, the necessities of life, the basic commodities, will offer greater opportunities than investments in stocks and bonds, providing the trader knows the rules to follow. "My object is to write something that will be helpful to people in trade lines and to those who have long years of experience in the commodity market, as well as the inexperienced trader who wants knowledge and needs to learn the ways to start right, and to protect his capital and make profits. Life affords no greater pleasure than that of helping others who are trying to help themselves. "I am going to give the best of my forty years of experience in this book, and I hope to show others the way to help themselves and follow mathematical rules in the commodity market, which will result in profits. I do not believe in gambling or reckless speculation, but am firmly convinced, after years of experience, that if traders will follow rules and trade on definite indications, that speculation can be made a profitable profession. Trading in commodities is not a gambling business, as some people think, but a practical, safe business when conducted on business principles. "I offer this book to the public with a sincere conviction that if they put in the time studying, they will derive great benefits."

strategies.” —David Callaway, editor-in-chief, MarketWatch “How to Make Money in Stocks is a classic. Any investor serious about making money in the market ought to read it.”
—Larry Kudlow, host, CNBC’s “The Kudlow Report”

TRADING IN THE ZONE

MASTER THE MARKET WITH CONFIDENCE, DISCIPLINE, AND A WINNING ATTITUDE

Penguin Douglas uncovers the underlying reasons for lack of consistency and helps traders overcome the ingrained mental habits that cost them money. He takes on the myths of the market and exposes them one by one teaching traders to look beyond random outcomes, to understand the true realities of risk, and to be comfortable with the “probabilities” of market movement that governs all market speculation.

AN ALTCOIN TRADER'S HANDBOOK

No doubt you will have seen or heard about the fervour that surrounded cryptocurrencies in 2017, and many of you may have dismissed them as a legitimate asset class; many may have felt a quiet interest but a looming fear; others undoubtedly felt drawn towards the allure of cryptocurrencies and altcoins (and any of the other innumerable names) yet lacked the framework required to tame this volatile and novel market. To you, I present An Altcoin Trader's Handbook: The exponential growth of the cryptosphere over the previous half-decade has brought with it a plethora of life-changing speculative opportunities. Where traditional financial markets seem inaccessible and ineffectual due to the prevalence of high fees and low returns, the emergence of a worldwide market of decentralised alternatives to Bitcoin allows for those unable (or unwilling) to navigate the often-slippery world of hedge funds and investment banks the chance to realise financial freedom. This, of course, is no effortless journey, and this book does not profess to be a get-rich-quick scheme of any sort. Instead, An Altcoin Trader's Handbook merges almost five years of tragicomic yet insightful anecdotes on the ever-evolving nature of the cryptosphere with a comprehensive strategy for profitable altcoin speculation. The book focuses on maximising the upside potential of capital whilst diminishing downside risks, both of which are possible with speculation on so-called 'microcap' and 'lowcap' altcoins, given the application of proper risk management. Above all, the reader will learn, in exhaustive detail, the three-stage process of research, accumulation and distribution that has been the bedrock of my own success in the space. The journey will be intensive - often arduous - but will, with some good fortune, result in an individual most well-equipped to capitalise on the greatest glut of financial opportunity the world has ever seen.

MARKET WIZARDS

INTERVIEWS WITH TOP TRADERS

Harper Collins A bestselling classic (more than 200,000 copies sold in hardcover and paperback) that delves into the minds of some of the world's most successful traders.
