Trauma Recovery and Empowerment

A Clinician's Guide for Working with Women in Groups

Simon and Schuster This one-of-a-kind guide serves as a rich and essential resource for mental health professionals working with women whose lives have been shattered by the trauma of sexual, physical, or emotional abuse. The book presents a practical, step-by-step guide to implementing a group recovery program for female trauma survivors.

Shattered Assumptions

Simon and Schuster This book investigates the psychology of victimization. It shows how fundamental assumptions about the world's meaningfulness and benevolence are shattered by traumatic events, and how victims become subject to self-blame in an attempt to accommodate brutality. The book is aimed at all those who for personal or professional reasons seek to understand what psychological trauma is and how to recover from it.

Solution-Focused Brief Therapy with Clients Managing Trauma

Oxford University Press The topic of trauma has been covered in many books, and there are many publications covering the use of SFBT in different settings and with varied client populations. However, the convergence of these topics has, to date, been covered only minutely. *Solution-Focused Brief Therapy with Clients Managing Trauma* is a comprehensive overview of how Solution Focused Brief Therapy (SFBT) can be used as a treatment approach for working with clients managing various forms of trauma. It includes an overview of SFBT's basic tenets, a description of the current research supporting SFBT as an evidence-based practice, and a comparison of how SFBT clinicians may approach trauma cases differently than clinicians from other therapeutic approaches. The bulk of the text uniquely includes chapters contributed by skilled SFBT clinicians, with differing clinical expertise, sharing their knowledge and describing their strength-based, resiliency focus of applying SFBT in different traumatic circumstances. Practitioners and even Master's/doctoral students will find this text invaluable in learning how to best help traumatized clients develop a positive future and move toward healing and health.

Posttraumatic Stress Disorder

Scientific and Professional Dimensions

Academic Press This comprehensive overview of research and clinical practice in PTSD includes new insights into assessment with regard to DSM-5 and ICD-11, discussion of ongoing controversies in the field as to what constitutes safe and effective care, and new research as to assessment, diagnosis, treatment, and prevention of PTSD. The second edition includes new coverage of the neurobiology of PTSD, PTSD in special populations, and forensic issues relating to PTSD. Synthesizes research and clinical developments on PTSD Highlights key controversies, issues, and developments in the field Provides case studies for better understanding of clinical care Encompasses DSM-5 and ICD-11 major revisions to PTSD symptoms Includes new coverage of neurobiology and genetics of PTSD Includes advances in prevention and treatment of PTSD Includes new coverage of forensic issues related to PTSD

Substance Abuse Treatment: Addressing the Specific Needs of Women

DIANE Publishing

Healing Neen

One Woman's Path to Salvation from Trauma and Addiction

Health Communications, Inc. Choose for yourselves this day whom you will serve . . .

Seeking Safety

A Treatment Manual for PTSD and Substance Abuse

Guilford Publications This manual presents the first empirically studied, integrative treatment approach developed specifically for co-occurring PTSD and substance abuse. For persons with this prevalent and difficult-to-treat dual diagnosis, the most urgent clinical need is to establish safety--to work toward discontinuing substance use, letting go of dangerous relationships, and gaining control over such extreme symptoms as dissociation and self-harm. The manual is divided into 25 specific units or topics, addressing a range of different cognitive, behavioral, and interpersonal domains. Each topic provides highly practical tools and techniques to engage patients in treatment; teach "safe coping skills" that apply to both disorders; and restore ideals that have been lost, including respect, care, protection, and healing. Structured yet flexible, topics can be conducted in any order and in a range of different formats and settings. The volume is designed for maximum ease of use with a large-size format and helpful reproducible therapist sheets and handouts, which purchasers can also download and print at the companion Web page. See also the author's self-help guide *Finding Your Best Self, Revised Edition: Recovery from Addiction, Trauma, or Both*, an ideal client recommendation.

Theory & Practice in Clinical Social Work

SAGE Today's clinical social workers face a spectrum of social issues and problems of a scope and severity hardly imagined just a few years ago and an ever-widening domain of responsibility to overcome them. *Theory and Practice in Clinical Social Work* is the authoritative handbook for social work clinicians and graduate social work students, that keeps pace with rapid social changes and presents carefully devised methods, models, and techniques for responding to the needs of an increasingly diverse clientele. Following an overview of the principal frameworks for clinical practice, including systems theory, behavioral and cognitive theories, psychoanalytic theory, and neurobiological theory, the book goes on to present the major social crises, problems, and new populations the social work clinician confronts each day. *Theory and Practice in Clinical Social Work* includes 29 original chapters, many with carefully crafted and detailed clinical illustrations, by leading social work scholars and master clinicians who represent the widest variety of clinical orientations and specializations. Collectively, these leading authors have treated nearly every conceivable clinical population, in virtually every practice context, using a full array of treatment approaches and modalities. Included in this volume are chapters on practice with adults and children, clinical social work with adolescents, family therapy, and children's treatment groups; other chapters focus on social work with communities affected by disasters and terrorism, clinical case management, cross-cultural clinical practice, psychopharmacology, practice with older adults, and mourning and loss. The extraordinary breadth of coverage will make this book an essential source of information for students in advanced practice courses and practicing social workers alike.

The School-To-Prison Pipeline

A Comprehensive Assessment

Springer Publishing Company This is the first truly comprehensive assessment of the "school-to-prison pipeline"—the increased risk for certain individuals, disproportionately from minority and impoverished communities, to end up ensnared in the criminal justice system because of excessively punitive disciplinary policies in schools. Written by one of the foremost experts on this topic, the book examines school disciplinary policies and juvenile justice policies that contribute to the pipeline, describes its impact on targeted, both intentionally and unintentionally, children and adolescents, and recommends a more supportive and rehabilitative model that challenges the criminalization of education and punitive juvenile justice.

Rebuilding Shattered Lives

The Responsible Treatment of Complex Post-Traumatic and Dissociative Disorders

John Wiley & Sons In *Rebuilding Shattered Lives*, James A. Chu, MD, describes a proven approach to the assessment and treatment of post-traumatic and dissociative disorders developed at the Dissociative Disorders and Trauma Program at McLean Hospital and Harvard Medical School. Drawing on his extensive empirical research and more than a decade's clinical experience specializing in treating survivors of severe abuse, Dr. Chu also offers valuable insights into all the major areas of traumarelated symptomatology and provides the most detailed explanation of dissociative theory currently in print. And, with the help of numerous vignettes and case examples, he clearly illustrates common clinical dilemmas encountered when dealing with survivors of severe abuse as well as the most effective techniques for resolving them. *Rebuilding Shattered Lives* is an important working resource for mental health workers of all levels of experience. Throughout, the writing style is clear, and complex theories are explained with an emphasis on how they provide the conceptual basis for a rational, responsible, and safe approach to treatment.

Surviving Sexual Violence

A Guide to Recovery and Empowerment

Rowman & Littlefield Explains the range of different sexual violations, from harassment in the workplace and marital rape to sexual violence in the military and childhood sexual abuse; and offers tips from experts in the field on various modes of recovery including mind-body practices, psychoeducation, spirituality/religion, and journaling.

A Public Health Perspective of Women's Mental Health

Springer Science & Business Media *A Public Health Perspective of Women's Mental Health* Edited by Bruce Lubotsky Levin and Marion Ann Becker As many as one-half of all women in the U.S. will experience some form of mental illness in their lives—an especially distressing fact when health care budgets are in flux, adding to existing disparities and unmet health needs. Written from a unique multidisciplinary framework, *A Public Health Perspective of Women's Mental Health* addresses today's most pressing mental health challenges: effective treatment, efficient prevention, equal access, improved service delivery, and stronger public policy. Eminent clinicians, researchers, academicians, and advocates examine the effects of mental illness on women's lives and discuss the scope of clinical and service delivery issues affecting women, focusing on these major areas: Epidemiology of mental disorders in girls, female adolescents, adult women, and older women. Selected disorders of particular concern to women, including depression and postpartum depression, eating disorders, menopause, chemical dependence, and HIV/AIDS. Mental health needs of women in the workplace, rural areas, and prisons. Racial and ethnic disparities and their impact on service delivery. Parenting and recovery issues in mothers with mental illness. Women's mental health services in an era of evidence-based medicine. Improving women's health in today's technological climate. *A Public Health Perspective of Women's Mental Health* is a resource of immediate importance to professionals and graduate students in the public health, health administration, health disparities, social work, behavioral health, and health services research fields, as well as nursing, community/health psychology and community/public psychiatry.

Trauma and Recovery

The Aftermath of Violence--From Domestic Abuse to Political Terror

Basic Books In this groundbreaking book, a leading clinical psychiatrist redefines how we think about and treat victims of trauma. A "stunning achievement" that remains a "classic for our generation." (Bessel van der Kolk, M.D., author of *The Body Keeps the Score*). *Trauma and Recovery* is revered as the seminal text on understanding trauma survivors. By placing individual experience in a broader political frame, Harvard psychiatrist Judith Herman argues that psychological trauma is inseparable from its social and political context. Drawing on her own research on incest, as well as a vast literature on combat veterans and victims of political terror, she shows surprising parallels between private horrors like child abuse and public horrors like war. Hailed by the *New York Times* as "one of the most important psychiatry works to be published since Freud," *Trauma and Recovery* is essential reading for anyone who seeks to understand how we heal and are healed.

Human Trafficking

A Treatment Guide for Mental Health Professionals

American Psychiatric Pub

Examining the Relationship between Trauma and Addiction

Routledge Trauma, trauma-related disorders, substance use, and addictive disorders often co-occur, and frequently play a role in the problems and issues that social workers contend with in their practice with individuals, families, and communities. Research shows that there is a relationship between trauma-related symptoms and problematic use of substances and other addictive behaviors. Individuals who experience these co-occurring problems have better outcomes when their issues are addressed with integrated treatment approaches. Trauma-informed care and trauma-specific treatment are therefore important components of effective social work interventions. This book examines various types of trauma, such as intergenerational trauma, adverse childhood events, childhood sexual abuse, and minority stress, amongst various populations and settings, including Native Americans, homeless youth, drug court participants, and LGB adolescents. It also explores the challenges in delivering trauma services in outpatient addiction treatment settings. Furthermore, it provides practical information on how to implement trauma-informed approaches in addiction treatment, and offers insights into the experience of a trauma survivor who is also recovering from a substance use disorder. This book was originally published as a special issue of the *Journal of Social Work Practice in the Addictions*.

Human Trafficking Is a Public Health Issue

A Paradigm Expansion in the United States

Springer This clear-sighted reference examines the public health dimensions of labor and sex trafficking in the United States, the scope of the crisis, and possibilities for solutions. Its ecological lifespan approach globally traces risk and protective factors associated with this exploitation, laying a roadmap towards its prevention. Diverse experts, including survivors, describe support and care interventions across domains and disciplines, from the law enforcement and judicial sectors to community health systems and NGOs, with a robust model for collaboration. By focusing on the humanity of trafficked persons, a public health paradigm broadens our understanding of and ability to address trafficking while adding critical direction and resources to the criminal justice and human rights structures currently in place. Among the topics covered: Children at Risk: Foster Care and Human Trafficking LGBTQ Youth and Vulnerability to Sex Trafficking Physical Health of Human Trafficking Survivors: Unmet Essentials Research Informing Advocacy: An Anti-Human Trafficking Tool Caring for Survivors Using a Trauma-Informed Care Framework The Media and Human Trafficking: Discussion and Critique of the Dominant Narrative Human Trafficking Is a Public Health Issue is a sobering read; a powerful call to action for public health professionals, including social workers and health care practitioners providing direct services, as well as the larger anti-trafficking community of advocates, prosecutors, taskforce members, law enforcement agents, officers, funders, and administrators. "An extraordinary collection of knowledge by survivors, academics, clinicians, and advocates who are experts on human trafficking. Human Trafficking is a Public Health Issue is a comprehensive offering in educating readers on human trafficking through a multi-pronged public health lens." Margeaux Gray: Survivor, Advocate, Artist, Public Speaker

Women of the Asylum

Voices from Behind the Walls, 1840-1945

Doubleday Accounts by women placed in asylums from 1840 to 1945 provide a chilling study of psychiatric institutions and attitudes toward women

The Trauma Recovery Group

A Guide for Practitioners

Guilford Press "Rich with expert, practical guidance for therapists, this book presents an evidence-based group treatment approach for survivors of interpersonal trauma. This time-limited treatment is designed for clients who have achieved basic safety and stability in present-day life and who are ready to work on the more enduring ways that trauma has harmed their self-perception and relationships. Vivid case examples and transcripts illustrate the process of screening, selecting, and orienting group members and helping them craft and work toward individualized goals, while optimizing the healing power of group interactions. In a convenient large-size format, the book includes reproducible handouts, worksheets, and flyers"--Provided by publisher.

Responding to Physical and Sexual Abuse in Women with Alcohol and Other Drug and Mental Disorders

Program Building

Routledge Learn from the experiences of these program sites to develop better services for women with co-occurring disorders and histories of violence This book explores the efforts of the Women, Co-Occurring Disorders and Violence Study to address the significant lack of appropriate services for women trauma survivors with co-occurring mental health and substance use disorders. Experts describe the services integration programs of nine participating sites that address the multiple needs of these women. In this guide, you will find useful strategies for integrating services that are responsive to the strengths and needs of the individual as well as the community. This vital resource examines how—over a period of five years—sites designed, implemented, and evaluated their interventions. You will learn how sites developed their strategies for integrating services at both the clinical/individual level and at the services or systems level. The book also shows how trauma-informed, gender-specific, culturally competent care fosters treatment that is sensitive to related issues such as children and parenting, interpreting culture cues, and socioeconomic difficulties. In *Responding to Physical and Sexual Abuse in Women with Alcohol and Other Drug and Mental Disorders*, you will learn about the details of nine different programs, including: Franklin County Women’s Research Project—a collaborative project for rural women, designed and operated by local consumer/survivor/recovering women (CSRs) The Triad Women’s Project—a semi-rural comprehensive system of care to respond to the needs of women and children The Women Embracing Life and Living (WELL) Project—interventions include trauma, parenting, systems integration and mutual help groups with Integrated Care Facilitators providing resource coordination and advocacy services PROTOTYPES, Centers for Innovation in Health, Mental Health, and Social Services—the three levels of integration the Systems Change Center implemented the Boston Health Commission—an integrated model of trauma-informed services culturally and linguistically appropriate for its service population of primarily poor Latina and African American women Palladia’s Portal Project—a comprehensive trauma-informed intervention designed to put trauma and safety first to assist women remaining in treatment Arapahoe House’s New Directions for Families—a family-oriented intervention for women and their dependent children Allies—comprehensive, integrated services for women as well as intervention for their children, ages 5-10 The District of Columbia Trauma Collaboration Study (DCTCS)—a two-phase project addressing the needs of dually diagnosed women trauma survivors *Responding to Physical and Sexual Abuse in Women with Alcohol and Other Drug and Mental Disorders* provides you with first-hand accounts of the process by which programs and service systems were transformed. As challenges were met and strategy was adapted to “real world” situations, the sites discussed in this text found new and improved methods for helping this unique group of women. The book offers tips, solutions, and possibilities to mental health professionals, substance abuse professionals, and domestic violence professionals, and even patients and/or clients searching for support.

Helping Men Recover

A Program for Treating Addiction, Special Edition for Use in the Justice System, Facilitator's Guide

John Wiley & Sons AN INSIGHTFUL, EFFECTIVE, AND CONTEMPORARY APPROACH TO ADDICTION TREATMENT FOR THOSE WHO ARE IMPACTED BY THE JUSTICE SYSTEM In the newly revised second edition of *Helping Men Recover: A Program for Treating Addiction, Special Edition for Use in the Justice System*, a team of experts delivers a practical and straightforward framework to assist men struggling with substance use disorders. Targeting the four areas most consistently identified by men as triggering relapse—the self, sexuality, spirituality, and relationships—this therapeutic program has twenty-one sessions and explores topics like self-awareness and identity, the impact of family, abuse and trauma, communication, male socialization, and many more. Readers will also find: Three additional sessions with new exercises Comprehensive strategies for the creation of safe spaces in which men will feel comfortable expressing themselves, reflecting, and learning Information about how men experience and recover from addictions and trauma Ways to develop and learn teach the skills men need to maintain and sustain recovery from substance use disorders and live the life they want to live An indispensable collection of exercises and other resources for men in the criminal justice system who are struggling with substance misuse. *Helping Men Recover* belongs on the bookshelves of social workers, clinicians, and other correctional system professionals.

Treating Addictions

The Four Components

Routledge *Treating Addictions: The Four Components* offers a unique and coherent understanding of addiction. The book begins with a chapter discussing the framework of addiction and the four essential components of treatments—the fundamentals of addiction, co-occurring disorders, quality of life, and macro factors—and subsequent chapters elaborate on each component. Most currently available addiction treatment books present knowledge and skills in separate chapters and fail to integrate all chapters within a single framework that can weave all concepts into a meaningful tapestry. Using a unified framework, this book offers students a comprehensive skill set for treating addictions.

Trauma-Informed Care

How neuroscience influences practice

Routledge This accessible book provides an overview of trauma-informed care and related neuroscience research across populations. The book explains how trauma can alter brain structure, identifies the challenges and commonalities for each population, and provides emergent treatment intervention options to assist those recovering from acute and chronic traumatic events. In addition, readers will find information on the risk factors and self-care suggestions related to compassion fatigue, and a simple rubric is provided as a method to recognize behaviours that may be trauma-related. Topics covered include: children and trauma adult survivors of trauma military veterans and PTSD sexual assault, domestic violence and human trafficking compassion fatigue. Trauma-Informed Care draws on the latest findings from the fields of neuroscience and mental health and will prove essential reading for researchers and practitioners. It will also interest clinical social workers and policy makers who work with people recovering from trauma.

Empowerment Series: Direct Social Work Practice: Theory and Skills

Cengage Learning Considered the classic source by means of the authors' proven learning experiences from the field, as well as its excellent balance of theory and application, DIRECT SOCIAL WORK PRACTICE: THEORY AND SKILLS prepares social work students for effective ethical practice. Authoritative, well organized, and written with an appropriate level of rigor, this thorough introduction to practice grounds students in theory while connecting them through vivid examples and vignettes to real-world applications with clients. Many case examples are drawn from social work practitioners as well as the authors' own practice situations. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Trauma Transformed

An Empowerment Response

Columbia University Press Whether it's physical, psychological, social, historical, or ongoing, trauma is a universal experience, and this book provides professionals with the approaches necessary for successful and empowering interventions across the trauma spectrum. Part one examines the steps individuals take to heal their traumas. Nicolas survives an attack by his own dog; Tay rebuilds her life after years of incest; Claire speaks out about being molested by a program participant at her mental health clinic; and Erma copes with the shattering memories of childhood abuse. Part two focuses on interpersonal dynamics. Frank is held accountable for his violence toward his wife; Erin and her mother confront the reality of bullying and victimization in schools; Beth faces discrimination because of her sexual orientation; and staff members at a transitional housing shelter deal with the death of a client. Part three recounts stories of resilience and healing at the social and community level. Salome and her family process the historical trauma of the massacre of her American Indian ancestors. A group of boys who became fatherless after 9/11 respond to experiential ways of coping with their grief. Jennifer and Kim live daily with the social trauma of poverty. Three Liberian families survive torture, flight, refugee camps, and resettlement. Amory struggles to find meaning and move on from his experience as a combat veteran, and the story of Angelina Batiste epitomizes the loss and resilience of those who lived through Hurricane Katrina. Trauma Transformed provides insight into the psychological and spiritual resources practitioners need to help victims move forward and improve upon their circumstances. Readers will also learn to strengthen their sense of self to prevent secondary trauma.

Through a Trauma Lens

Transforming Health and Behavioral Health Systems

Routledge Through a Trauma Lens aims to understand and highlight successful examples of health, mental health, substance abuse treatment, and other service delivery systems that have implemented an integrated trauma-informed service model. This innovative volume draws on the author's first-hand experience working alongside a number of local and state organizations as well as a nationwide survey of notable trauma-informed models. Structured around illustrative case studies, chapters that correspond to stage of adoption, and strategies for cultivating staff support, this valuable new resource include examples and strategies to be applied in any treatment or service setting.

Women and Girls in the Criminal Justice System

Policy Issues and Practices

Civic Research Institute, Inc. For many years, sentenced women were ignored or neglected, locked up in male surroundings, or lost among caseloads of men. Today, however, there are systemic approaches and interventions designed especially to meet the needs of this population. Women and Girls in the Criminal Justice System provides essential practice guidance for professionals who deal with

the problems of female offenders--criminal justice policymakers; correctional administrators; probation and parole officials; ATI program administrators; vocational program agency heads, social workers; mental health clinician; judges. This authoritative guide from the editor of Women, Girls & Criminal Justice distills the best thinking of leading practitioners and researchers--all in a convenient single resource that puts a wealth of information within easy reach.--Publisher description.

Risking Connection

A Training Curriculum for Working with Survivors of Childhood Abuse

Co-Occurring Disorders

Integrated Assessment and Treatment of Substance Use and Mental Disorders

PESI Publishing & Media Despite an increased awareness of co-occurring disorders, most current treatment paradigms still focus on one problem or the other, leaving much unassessed, unaddressed, or ignored. Until now - a revolutionary new book from Dr. Charles Atkins that can break the cycles of relapse for those intertwined with substance use and mental illness. *Co-Occurring Disorders* is a guide to practical assessment and effective treatment approaches for working with any number of co-occurring disorders. This step-by-step approach, demonstrated through diverse case studies, gives you the tools you need to improve and track your clinical outcomes. This is a must-have resource for both the rubber-meets-the-road clinician, who wants effective strategies and a clear direction for treatment and recovery, and the administrator who creates interventions at the system level with attention to regulatory and reimbursement demands. Also included is a comprehensive state-by-state Guide to Mental Health and Substance Abuse Agencies and Prescription Monitoring Programs Evidence-Based Integrated Treatment, finding the right tool for the job: • Motivational Interviewing • Cognitive-Behavioral Therapy and Strategies • Skills Training • Mindfulness Training • Mutual Self-Help & Peer-Based interventions • Wellness interventions • Recovery based • Family interventions • Assertive Community Treatment and Targeted Case Management • Psychopharmacology including opioid and nicotine replacement strategies Diagnosis-Specific Issues in Co-Occurring Disorders: • ADHD • Depression and Bipolar Disorders • Anxiety and PTSD • Schizophrenia and other Psychotic Disorders • Personality Disorders Substance-Specific Issues in Co-Occurring Disorders: • Alcohol • Opioids • Tobacco • Cocaine and other Stimulants, including "Bath Salts" • Cannabis & Synthetic Cannabis • The Internet and other sources of Drugs Reviews: "A comprehensive, user-friendly compilation of assessment and intervention strategies to be used for clients. It includes a number of worksheets for both clinicians and clients, and is a valuable tool for treatment decision-making." -- Donald Meichenbaum, PhD, noted author and speaker, a CBT founder, and voted one of the 10 most influential psychotherapists of the 20th century "This book is wonderful. I plan to adopt it as a textbook for my MSW Co-Occurring Disorder Program." -- Jaak Rakfeldt, Ph.D., Co-Occurring Disorder Cohort Program, MSW Coordinator, Southern Connecticut State University Professor "So much valuable information in a user friendly manner, clinicians as well as others will find this book useful in their practice. This resource is a powerful tool and I am especially proud of the way he connects issues related to gender and trauma." -- Colette Anderson, LCSW, CEO The Connecticut Women's Consortium "A clear, concise and straightforward and up to date text on co-occurring disorders has been glaringly lacking in the Behavioral Health Field. *Co-Occurring Disorders: The Integrated Assessment and Treatment of Substance Use and Mental Disorders* offers students and clinicians at all levels a comprehensive view of the challenges of treating those with a co-occurring mental health and substance use disorder. Written in plain language, Atkins provides a clinical road map beginning with an outline of key issues and ending with treatment planning. Atkins also does what most don't and that is to stress the importance of peer support, natural supports and self-help. *Co-Occurring Disorders: The Integrated Assessment and Treatment of Substance Use and Mental Disorders* is an important addition to any educator's and clinician's bookshelf." --Eileen M. Russo, MA, LADC, Assistant Professor, Drug and Alcohol Recovery Counselor Program, Gateway Community College, New Haven, CT "As a person that has lived with bipolar disorder for many years and has proudly disclosed my personal journey of recovery, I know there are many people who would greatly benefit from the treatments suggested in this powerful book-co-occurring services are rarely done in such a comprehensive way." -- Dr. Karen A. Kangas, Director of Operations, Advocacy Unlimited, Inc.

Treating Complex Traumatic Stress Disorders (Adults)

Scientific Foundations and Therapeutic Models

Guilford Publications Chronic childhood trauma, such as prolonged abuse or family violence, can severely disrupt a person's development, basic sense of self, and later relationships. Adults with this type of history often come to therapy with complex symptoms that go beyond existing criteria for posttraumatic stress disorder (PTSD). This important book brings together prominent authorities to present the latest thinking on complex traumatic stress disorders and provide practical guidelines for conceptualization and treatment. Evidence-based assessment procedures are detailed, and innovative individual, couple, family, and group therapies are described and illustrated with case vignettes and session transcripts.

The Wiley Handbook on What Works with Girls and Women in Conflict with the Law

A Critical Review of Theory, Practice, and Policy

John Wiley & Sons The Wiley Handbook on What Works with Girls and Women in Conflict with the Law The most practical discussion of the rehabilitation of girls and women in conflict with the law in the correctional arena What Works with Girls and Women in Conflict with the Law is the leading examination of evidence-based practice in the field of gender-responsive corrections. Adopting an international and intersectional approach, the distinguished authors seek to collect the best available data and thinking on what works with girls and women and apply it to the real-world problems facing correctional systems today. As part of its contextual and rich approach to the subject, What Works with girls and women in conflict with the law, covers a broad variety of topics, ranging from theories of female involvement in crime, security classification and risk assessment, evidence-based treatment and supervision approaches, special populations (such as Indigenous women), to legal/policy developments in the field of gender-responsive corrections. Perfect for students and practitioners in the field of psychology, criminology, social work, criminal justice, and corrections, this is the only reference of its kind to focus on the practical applications of the latest theory.

Trauma, Resilience, and Health Promotion in LGBT Patients

What Every Healthcare Provider Should Know

Springer This book has two goals: to educate healthcare professionals about the effect of identity-based adversity on the health of their LGBT patients, and to outline how providers can use the clinical encounter to promote LGBT patients' resilience in the face of adversity and thereby facilitate recovery. Toward this end, it addresses trauma in LGBT populations; factors that contribute to resilience both across the lifespan and in specific groups; and strategies for promoting resilience in clinical practice. Each chapter includes a case scenario with discussion questions and practice points that highlight critical clinical best practices. The editors and contributors are respected experts on the health of LGBT people, and the book will be a "first of its kind" resource for all clinicians who wish to become better educated about, and provide high quality healthcare to, their LGBT patients.

Evidence Based Treatments for Trauma-Related Psychological Disorders

A Practical Guide for Clinicians

Springer This book offers an evidence based guide for clinical psychologists, psychiatrists, psychotherapists and other clinicians working with trauma survivors in various settings. It provides easily digestible, up-to-date information on the basic principles of traumatic stress research and practice, including psychological and sociological theories as well as epidemiological, psychopathological, and neurobiological findings. However, as therapists are primarily interested in how to best treat their traumatized patients, the core focus of the book is on evidence based psychological treatments for trauma-related mental disorders. Importantly, the full range of trauma and stress related disorders is covered, including Acute Stress Reaction, Complex PTSD and Prolonged Grief Disorder, reflecting important anticipated developments in diagnostic classification. Each of the treatment chapters begins with a short summary of the theoretical underpinnings of the approach, presents a case illustrating the treatment protocol, addresses special challenges typically encountered in implementing this treatment, and ends with an overview of related outcomes and other research findings. Additional chapters are devoted to the treatment of comorbidities, special populations and special treatment modalities and to pharmacological treatments for trauma-related disorders. The book concludes by addressing the fundamental question of how to treat whom, and when.

Using Trauma Theory to Design Service Systems

New Directions for Mental Health Services, Number 89

Jossey-Bass Mental health practitioners are becoming increasingly aware that they are encountering a very large number of men and women who are survivors of sexual and physical abuse. This volume identifies the essential elements necessary for a system to begin to integrate an understanding about trauma into its core service programs. The fundamental elements of a trauma-informed system are identified and the necessary supports for bringing about system change are highlighted. The basic philosophy of trauma-informed practice is then examined across several specific service components: assessment and screening, inpatient treatment, residential services, addictions programming, and case management. Modifications necessary to transform a current system into a trauma-

informed system are discussed in great detail as well as the changing roles of consumers and providers. This is the 89th issue of the quarterly journal New Directions for Mental Health Services.

Principles and Practice of Psychiatric Rehabilitation An Empirical Approach

Guilford Press This comprehensive, authoritative text provides a state-of-the-art review of current knowledge and best practices for helping adults with psychiatric disabilities move forward in their recovery process. The authors draw on extensive research and clinical expertise to accessibly describe the “whats,” “whys,” and “how-tos” of psychiatric rehabilitation. Coverage includes tools and strategies for assessing clients’ needs and strengths, integrating medical and psychosocial interventions, and implementing supportive services in such areas as housing, employment, social networks, education, and physical health. Detailed case examples in every chapter illustrate both the real-world challenges of severe mental illness and the nuts and bolts of effective interventions.

The Intersection of Trauma and Disaster Behavioral Health

Springer This contributed volume examines the intersection of trauma and disaster behavioral health from a lifespan perspective, filling a critical gap in the literature on disaster mental health research. In the chapters, the contributors evaluate behavioral data of adults exposed to various environmental events in both the United States (i.e., the 2017 Hurricanes Irma in Florida and Harvey in Houston) and abroad (i.e., missile fire in the 2014 Israel-Gaza conflict). Contributors also suggest future directions, practices, and policies for trauma and disaster response. The three parts of the book provide an overview of disaster behavioral health across the lifespan, propose practical applications of research theories to psychosocial problems resulting from disasters and trauma, and evaluate disaster and trauma interventions from a macro-level perspective. Topics explored among the chapters include: Integrating Trauma-Informed Principles into Disaster Behavioral Health Targeting Older Adults Cultural Competence and Disaster Mental Health When Disasters Strike: Navigating the Challenges of “Sudden Science” Frameworks of Recovery: Health Caught at the Intersection of Housing, Education, and Employment Opportunities After Hurricane Katrina Substance Use Issues and Behavioral Health After a Disaster Psychosocial Recovery After Natural Disaster: International Advocacy, Policy, and Recommendations The Intersection of Trauma and Disaster Behavioral Health is a vital resource for researchers whose expertise covers the domains of trauma, health and wellness, and natural and technological disasters. The book also is a useful supplement to graduate courses in psychology, sociology, social work, disaster science, human ecology, and public health.

Opioid-Use Disorders in Pregnancy

Management Guidelines for Improving Outcomes

Gain guidance and support when treating the high-risk population of women confronting (or battling) opioid-use disorders during pregnancy.

Treating Traumatic Stress in Adults

The Practitioner’s Expressive Writing Workbook

Routledge Treating Traumatic Stress in Adults is a resource for therapists of all disciplines for use in the treatment of adults suffering from post-traumatic stress. By reading this unique synthesization of information on the most current trauma treatments and expressive writing exercises, practitioners will gain an integrative and practical set of tools for treating post-traumatic stress. Also included are numerous diverse case vignettes, exercises for building trust in the patient/client relationship, and sections dedicated to exploring the client’s thought patterns and emotions to provide an opportunity for exposure, healing, and restructuring maladaptive beliefs.

Oxford Textbook of Correctional Psychiatry

Oxford Textbooks in Psychiatry This textbook brings together leading experts to provide a comprehensive and practical review of common clinical, organisational, and ethical issues in correctional psychiatry.

Screening, Assessment, and Treatment of Substance Use Disorders

Evidence-based practices, community and organizational setting in the era of integrated care

Oxford University Press There is a clear and pressing need for health professionals, including social workers, to be trained in evidence-based practices (EBPs) in the area of substance use disorders (SUD). The Substance Abuse and Mental Health Services Administration (SAMHSA) and other national organizations and government agencies have all put out reports calling for this vital need, though there remains a significant shortage of properly trained clinicians. The aim of this book is to provide an integrated perspective on addiction treatment on the evidence-base of psychosocial and medication-assisted treatment for substance use disorder. The volume is unique in that it critically examines the evidence base of both psychosocial and pharmacological treatment practices targeting a profession of social work audience. It is also one of few that (1) incorporates evidence both from the United States and internationally, and (2) presents a methodology that permits the authors to systematically review a large number of empirically based studies in an organized and easy-to-read manner. Additionally, the text incorporates a health disparities perspective and describes implementation barriers at the organizational, community, and policy levels. It can be used in policy, human behavior, and clinical practice both nationally and internationally.

Workplace Violence in Mental and General Healthcare Settings

Jones & Bartlett Learning The American Psychiatric Foundation Manfred Guttmacher Award Winner for 2012. *Workplace Violence in Mental and General Health Settings* provides clinicians, health care administrators, law enforcement professionals and educators with an easily accessible, cross-disciplinary approach to preventing and controlling violence in the workplace. This book condenses the vast literature available on workplace violence and renders it operational—allowing readers to rapidly digest important concepts and put them into action in real-world settings. *Workplace Violence in Mental and General Health Settings* draws on knowledge from fields beyond medicine to provide a comprehensive resource on everything from organizational and emergency room violence to self-defense techniques for the health care professional. More than any other, this book guides the reader from theory to practical application of prevention and management methods in the workplace. Key Features: - An explanation of violence terminology to enhance readability - New information on how workplace violence affects quality of care - Steps to manage high-volume emergency room violence - Specific training protocol to prevent workplace violence - A free CD-Rom containing sample workplace violence guidelines, powerpoints, internet links and more
