The Keys to Protecting Your Wealth and Making Big Profits In a Market Crash

scott m ecommerce **We're gearing up to profit from the upcoming stock market crash. Are you? Dear investor, What I'm about to tell you SUCKS. But not listening to this message will affect your financial future. In fact, ignoring this advice could cost you thousands, tens of thousands or even hundreds of thousands of dollars - depending on the size of your portfolio. You see, within the next 36 months there will be a stock market crash. All indicators show this is now a matter of when, rather than if. Wages are stagnating across the country. And the housing supply is beginning to outpace demand for the first time since 2008. These aren't just my opinions. They are shared by many Wall Street experts, including billionaire investors like Jim Rogers and Doug Casey. What's more alarming is... The numbers indicate this crash will be worse than 2008. Which wiped out over \$7 trillion dollars of investor money. So leaving your portfolio exposed... Will cause you to lose money faster than if you threw it off the edge of a cliff! However, it's not all doom and gloom. A few select investors, considered the smartest in the world...will not just survive the crash... They will thrive in the crash. For years their secrets have been closely guarded... But now you can benefit from the exact same strategies they use to protect...and even grow their wealth in a market downturn. The same strategies you can use to bulletproof your retirement. Strategies including: The "3 Rs" stocks which perform best in a bad market - Page 33 How to use cryptocurrency to hedge against your traditional portfolio - Page 59 The absolute worst type of stock to have in your portfolio, and one that always plummets during a downturn - Page 46 How regular folks can legally benefit from holding assets offshore - Page 41 The easiest way for the average investor to short the market (so simple, yet relatively unknown) - Page 31 The "pennies on the dollar method" to buy blue chip stocks at a huge discount (used by elite investors all the time) - Page 26 The asset which has become a favorite of billionaire crisis investors, and how you can invest using your regular brokerage account - Page 55 You'll also discover: 3 vital indicators which show us a**

Building Wealth with Silver

How to Profit From the Biggest Wealth Transfer in History

Thomas Herold **The greatest transfer of wealth in the nation and the world is now unfolding. Money is about to flow away from the financially uninformed and flow towards the financially well-informed in the years ahead. Whenever governments start to dilute their money investors transfer their money into gold and silver. Although gold is a great way to preserve your wealth, it's silver you could actually make a fortune with. Protect your savings and create a substantial investment income every single month. Financial ignorance is the only reason you are not yet cashing in on the biggest wealth transfer in history. A Solid Method to Achieve Financial Freedom This book will show you exactly how to live and prosper by the new laws of money in the new economy. It will show you how to beat the new money thieves (Banks and Governments) at their own game while quietly profiting from the money meltdown that is now underway. We are approaching a monetary crisis of epic proportions never before seen. You are probably aware of the rising price of gold that's been going on for almost 10 years now. Most recently, gold started climbing with even greater speed. History repeats itself again and again. Whenever governments start to dilute their money investors transfer their money into gold and silver. Gold and silver have intrinsic value and will always prevail in any economy. Many financial experts predict that gold could at least double to \$3,000 . . . \$3,500 . . . and some say even \$5,000! But experts also predict the price of silver could rise seven to eight times its current value before hitting its peak. What most non-investors and investors - including yourself - probably don't realize is that although gold is a great way to preserve your wealth, it's silver that could actually make you rich! The price of gold has already risen dramatically, but**

silver is just beginning its parabolic climb. Over the last 9 years the silver price increased an average of 29% per year! Compare this to the stock and real estate market, which declined when adjusted for inflation. **Nine Reasons Why Silver is a Unique Wealth Building Instrument** Silver, like gold, has intrinsic value Silver has been in a commodity bull cycle since 2000 Silver is a safe hedge against currency inflation Silver is a security choice during times of financial crisis Silver is rarer than gold Silver is used in 90% of all electronics - and its mostly non-renewable Silver leasing - the scam will be exposed soon Silver investment markets are expanding thanks to the Chinese **What You Will Learn From Building Wealth with Silver** You will discover why the Federal Reserve was created and why you and I have been kept in the dark about its true purpose. You will find out why the U.S. dollar is quietly being destroyed without fanfare and the reason this process is being publically denied and covered up. **Learn Why Silver is the Best Investment Opportunity Right Now.** Get the facts on silver production and consumption, and all the details behind silver's projected five- to eight-fold increase over the next several years. **Financial Education Is The Solution To Financial Freedom** Discover the facts about our global banking and government system that will change the way you look at money forever. You will learn how to buy silver at the lowest price. Professional trading techniques that leverage and maximize your profit. Understanding how the money system works will give you financial freedom. During the next few years the global financial system will be restructured on a scale that has never seen before. There are a few opportunities for you to profit from it - silver is one of them. **Special Bonus:** This book also includes a \$200 coupon for the author's **Wealth Building Course.**

Get Rich Action Plan

How to Save Money and Build Wealth in 8 Simple Steps

You Don't Need to Make Millions to Get Rich. Believe Me. This comprehensive 8-step guide provides the blueprint to achieve financial freedom at a young age, regardless of income. No B.S., just answers. In **Get Rich Action Plan**, you will learn the lifelong habits to become financially independent sooner than you thought possible. **Do we really need another personal finance book? YES.** The outdated status quo advice of "Save 10% for 40+ years" simply doesn't work. It's time to rethink the conventional wisdom that only serves to continue the vicious cycle of wage slavery and the "live to work" mentality. In an age of globalization and abundance, I'm here to tell you there is another way! It is time to

change how we think about personal finance, budgeting, and investing. The 8 steps in this book each work in unison to create a rapid snowball effect that will make your money work for you immediately, so you can afford time off of work or even retire in your 30's. From saving money to investing to growing your income, all of the specifics are covered in this action plan. **Get Started on the Right Foot and Change How You Think About Finances** I have never made much money by Western standards. In fact, I have never made more than a middle class income. But by employing these strategies, I was able to increase my net worth dramatically at a very young age. It took only 6 years of full-time employment to build an "FU money" fund of hundreds of thousands of dollars, providing me the freedom to travel and take time off of work to pursue other interests. I was able to do this by quickly taking action and ignoring conventional advice. After years of trial and error, I have developed a strategy and philosophy that simply works. And I want to share with you everything I have done to build this large nest egg. I have nothing to hide. The truth is that the path to wealth is not complicated, and you do not need to make millions to get there. More and more of us are realizing that financial freedom is possible in 10 years or less. But the media will never tell you this. Your politicians will never tell you this. They want you to live to work instead of work to live. Now is the time to flip the script and live free! **The Time To Take Action Was Yesterday. The Next Best Time is Now.** Whether you are in your 20's and looking for sound advice to get started, or you're later in your career and haven't really thought about financial freedom, it's not too late to start! Once you put these systems in place, financial independence will no longer be a lifelong battle. Ditch the 40-year plan and live the life you want to live. **Get started today! BONUS MATERIAL INCLUDED** I'm also excited to share **FREE** bonus material that highlights "27 Ways I Slashed My Budget By \$1818 Per Month." A link to the free PDF is included in the book! Adhering to the strategies in this book and in the free bonus guide will grow your net worth by thousands in the first year and hundreds of thousands over your lifetime! What are you waiting for? Online Trading and Stock Investing for Beginners

The Easy Way to Start Trading and Getting Rich in the Stock Market

Instafo **The Beginner's Guide to "Online Trading and Stock Investing" Welcome Newbie - who wants to start trading and getting rich in the stock market... What if you were told that you're losing the money you own right now...simply by NOT investing it? Naturally, you would probably think "Argh, another scammer trying to con me into putting money in some false money-making opportunity to never been seen again" - or something along those lines, right? No, that's not the case here! The hard-to-swallow fact? Whatever money you have lying around somewhere and even saved in the bank is gradually losing its value due to "inflation" outpacing everything - resulting in the decreased buying power of the currency. To top it off, the middle class is diminishing and people are taking up extra jobs and working longer hours to make ends meet. Saving money and living below your means are no longer viable options to get by - leading to a wider wealth gap than ever with the poor getting poorer and the rich getting richer. For the latter group, however, there is a reason for that, because the rich have a different mindset on how to generate wealth by having their money work for them through smart investing. Investing should no longer be an outlier for the rich only or those who can afford it, but a necessity for any normal person. But why aren't more people investing? The biggest hurdles are the unknown fear and the information overload discouraging people. Plus, they would have to go to an investment firm and find the right broker then pay all those fees that people hate, because let's face it - when you have no clue what you're doing and have to take money out of your pocket into another service without knowing if it's worth the risk, you avoid bothering with it altogether. Well, long gone are those days. Now with modern technology, more options, and better services, "do-it-yourself trading and investing" has never been easier and convenient, even if you have never**

filed taxes before and among other stuff they don't teach you in school. "Online Trading and Stock Investing for Beginners" will guide you through: - The confusing common terminologies simplified and types of investments available - The best stock trading platforms and brokerages with the crucial criteria to look for - The secret to generating huge wealth in investing through the power of compounding - The stock most people don't know about that has never failed for the past 100 years - The action steps to put everything into making your first investment today right away ...on top everything else that beginners need to know. Still hesitant about investing? The truth is you don't really need to know everything about investing in order to get started; you just need to start! The best part is that this will take you from being a newbie who doesn't know anything to purchasing your first stock afterward. It's less academic and technical than most resources out there but rather more practical hands-on aimed at getting you started immediately. That's exactly how easy and fast our approach is designed. Begin your investment venture today!

It present a new perspective in avoiding scams, by first elaborating on some gaming mechanisms that scammers have employed in deceiving scam targets and which many of us have misunderstood. The book deals with a wide range of topics, including how scams get introduced to eventual victims, types of scams, different scam proposal responses, and different types of payments a scam victim can make to the scammer. The investigation also examines the role of commitment in making scams successful, the relationship between the scammers confidentiality requests and occultism, and how best scam victims can present their case for a proper prosecution of these elusive culprits, considering the legalities and illegalities involved. Overall, the author identifies salient features of scam businesses, in comparison to genuine business features, exposing the sophistication of scammers in eliciting an advance payment from their unsuspecting victims. I have paid thousands of dollars on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a

last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you. This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. 5 Easy Steps to Financial Freedom

Do What You Love and Get Rich Doing It

CEOeBooks **Book Praise & Reviews** ""As a how-to guide, this book contains everything you may need to know to turn your passions into profits."" **Bill Bartmann (Billionaire entrepreneur, author, speaker, educator) Read & Give Program A portion of the sale of this book is donated to charity. Book Description** Are you unhappy in your job? Are you tired of living paycheck to paycheck and feel like you just don't have enough money, skills, or education to turn your life around? Even if you're not sure you know what it is you like to do, you can change your life and get rich doing it, says entrepreneur Duane Harden in his wise and entertaining new book, **5 Easy Steps to Financial Freedom: Do What You Love & Get Rich Doing It. Turning your passion into a profitable business is easy, fast, and fun, says Harden, and you can become rich in just five easy steps. First, start by saying yes to financial freedom. Attitude is everything and as the Law of Attraction states, what you put out into the universe is often what you attract. If you imagine yourself financially secure and happy, you will be. Imagining a new life for yourself is the inspiration you need to go out and do the concrete things to turn your dreams into a reality. Conversationally written and filled with humorous drawings, helpful worksheets, and key tips, 5 Easy Steps to Financial Freedom also offers a 90-day action plan that includes**

blueprints for success that Harden himself used to build his wealth. His own journey included the purchase of numerous real-estate properties, opening a restaurant, starting a music company, and much more. Harden gives you "Life Assignments" that get you thinking and acting differently. Beware of what he calls the "crabs in a pot" mentality, where everyone is trying to pull everyone else down in order to struggle to the top. Instead, he advises, think positively. Stay away from the naysayers and feed your dream. Soon you will realize that your inner life is reflected in your outer life. Harden helps you to discover the real you, what you want, and how much money you want to be there for you now and in the future. He explains how the real difference between rich people and poor people is fear and an unwillingness to keep an open mind to new opportunities. Rich people are not afraid to take risks, and well-planned risks almost always pay off. Success, he reminds you, is your birthright and it's your job to claim it. Review your credit and your financial house. Clean up the clutter in your life, whether it is the wrong way of thinking or a messy desk. Discover what really makes you tick because when you love what you do it's never really work, and when passion is present the money will miraculously follow. Keep daily positive reminders taped where you can see them, or even have a vision board filled with photographs of where you want to be in life. Write your resignation letter to your boss, but don't send it yet. Just the act of writing it puts you in the right frame of mind for moving on to something much better. "You are what you think and will become what you dream," says Harden. You'll learn to be a PIG (passive income generator) Farmer, which requires little work but makes you tons of money. 5 Easy Steps to Financial Freedom shows you how go from rags to riches and is understandable and easy to read. This invaluable guide will change your life!

Three Steps to Wealth & Financial Security

All That Glitters Isn't Gold

CreateSpace "I recommend this book highly as one of the 10 most important 'must read' books published this year," **Robert Plotkin, Founding President, World Trade Center San Diego.** "Three Steps to Wealth & Financial Security - All That Glitters Isn't Gold" is a back to basics, easy to use guide to reassert financial control and secure your financial future. The book draws on real world examples that husband-and-wife authors attorney Gary Laturno, Esq. and Victoria Kuick, MBA, have encountered in counseling over two thousand homeowners in financial distress since 2007. As a result, the book will be an easy read for people who find financial matters confusing or even frightening. The authors' straightforward guidance and recommendations will help many take charge of their financial futures. Comments by Readers: I read your book last night. I'm incredibly impressed! It's a huge undertaking to present an enormous wealth of REALLY important and helpful information in a streamlined way...but you guys did it! And, I think your readers will really appreciate the genuine tone and straightforward approach—life changing stuff. Great job! I see this book distributed in high schools, colleges (law schools particularly—some lawyers are not great when it comes to financial matters), vocational schools, and the like. I hope you're aiming to reach the masses with this one—the subject matter is so salient right now, and this information is really resonating with people. Jennifer Manganello, Esq., University of California, Hastings College of the Law I just finished reading your book. Outstanding! I love the unique way it was written in PowerPoint format—original, straightforward, and easy to follow. The information the book contains, and how it is explained, makes it stand out. You do not allow the reader to blame others or make excuses about their financial situation. You tell them to look in the mirror, take responsibility, and you show them that money problems are not hopeless but fixable. The stock and real estate investing sections are informative and easy to understand. You take the complexity out of stock market investing. You show real estate investors the pitfalls to avoid. Readers will especially benefit from how you compare and contrast real estate investing with the stock market and other investments — bonds, precious metals and cash. It's evident the book was written from firsthand experience, making it truly authentic. I am impressed both by your credentials and your experience counseling over 2,000 homeowners in

financial distress since 2007. This book cuts to the core of what people need to know and do to put their financial house in order. I highly recommend your book! Read it and you will substantially increase your financial I.Q. Dory Laramore, Certified Registered Tax Preparer, and author of *Get Your Finances Right: The Foundation for Success "Three Steps to Wealth & Financial Security"* is well written, concise and provides a wealth of financial advice for every American. The authors ask and answer a number of profound questions. What are the lessons of the housing crisis? Why are savings rates in the United States so low? Why do so many retire on Social Security only? Why do so many mismanage their financial affairs? How do we put our financial house in order? What do we need to know and do to be financially secure? Understand the mistakes that so many made and continue to make. Fine tune your financial plan and money management skills. Recommendation: Read the book! Money management, financial planning, and wealth building are mandatory subjects not electives. Andrew J. Sussman, Esq., Partner, RSR Law Group, San Diego, California

The Forex Millionaire : Bust the Losing Cycle Escape Brokers Traps Unknown Profitable Tricks and Tips to Easy Instant Forex Millionaire

Become the New Rich, Live Anywhere, Escape The 9-5

CreateSpace I hope you sitting down, cause I am laughing on the floor at the notion of hearing, one more little talk about "the Forex Indicators, and how you can be the next Forex Millionaire using such and such crossing lines" See, the reason there are winners and losers in life and Forex as well, is some can see deception coming from a 100 miles away and some refuse to look at the truth. See, I was taken for a sucker, and was brought on a rollercoaster of books, trainings, Forex education like there is no tomorrow... But it took me nearly 3 years, to wake up from the magic little cozy balloon of guru's webinars and the next Big Talking head. During this time of course, I was spending thousands of dollars on books and Forex Robots and all kind of crap...you know what I am talking about. My family and friends, thought I have lost my mind, spending all this time in front of the screen(you may recognize yourself here) and looking

at "stupid charts" I kind of had become the laughing stock of the company " Look, the Forex Head is Alive" Eventually it got so bad, that I lost all interest in trading and was ready to quit... One afternoon, I overheard a conversation while at the golf course...yeah I am a snooper. There were two guys, sipping on something that came with a "small umbrella on top" and one of them was saying something so impressive, that made my ears become as big as an elevator shaft. The guys were speaking of a stock trader, turn to be a Forex trader, that was raking in the vicinity of 20 to 30k a month, from his house computer, doing it with couple trades a month. Listen to this, the guy was not a screen struck maniac like myself, he was not some kind of national television speaker, it turned out he was a member of the same golf club, I was a member too. Now, you can imagine my excitement and hopes came up, I was determined to meet this guy and squeeze every ounce of knowledge out of him... However, there was a big problem, that trader, I will call him trader X, for familiar reasons, did not go to the bars, was not in the social networks, and was not holding any training and educational courses on "how to be the next forex millionaire." He was quietly running the Forex Cash machine of his, had a large family and was spending time in his huge house. Now, I came in with a plan, where I would meet Trader X at one of the Club Events...you know those fund raiser things, Trader X was known for one thing, dumping a large sums of money on different causes that he cared about. I was able to talk Trader X in to giving me a half hour short consult. At the end I offered trader X to pay him for his services, and that's where my frustration became full, Trader X was not for sale. It didn't matter what I offered...whatever that was, it was all I had, he would not chime in to my idea of training me. Finally after much bugging him, he gave in and we started a regular weekly meetings, but he refused to get any money. He was saying..."Boy you are my fun today, all that trading is too boring and makes me sad." I was like, "K, if it is that boring, make me sad too" you know, let the stashes of cash come down. Eventually I moved to a different city and never heard of Trade X again. What I am about to reveal in this book is the real dirty truth about Forex and how you too can be the next Trader X. Forex trading is not all it is cracked up to be, the real winners are not your daily gurus, I will teach you everything that Trader X Taught me and more. You have a choice, keep going in circles, looking for the Holy Grail of Froex, or move your fingers, make a few mouse clicks and meet me on the other side. Take a click of faith! See you on the other side!

Secret of money making

Walnut Publication **The title of the book secret of money-making is about personal financial planning. The reader will know the importance of the wealth cycle. Wealth-cycle epitomizes the relationship between the flow of money and a person's life. It is a precise and simple way to look at your entire financial life and quickly figure out your position and make investment decisions, wealth protection plans and plan for successor or transfer of wealth. Developing a wealth management plan will secure one's financial independence. Birth, childhood, graduation, early employment, marriage, children, education/marriage of children, and retirement -- these are the life phases that people normally go through. The asset allocation and investment choices that are made would need to keep the life cycle in mind. Thus, in the early stages of one's professional career, the investment mix would be more like that set out above for the "Accumulation" phase in the wealth cycle. Towards retirement, it would be more like the "Distribution" phase in the wealth cycle. The investment mix would need to specifically provide for expected spikes in expenses in between ("Transition" phase), such as for buying a house, the marriage of children, etc.**

Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you.
