LOGGING & SAWMILLING JOURNAL

CANNABIS

NEUROPSYCHIATRY AND ITS EFFECTS ON BRAIN AND BEHAVIOR

MDPI Over the years, there has been increasing interest into the public health impact of cannabis use, especially by young adults. This follows the evidence of a growing prevalence of regular cannabis use worldwide, with approximately 200 million users. Recreational cannabis use, especially a frequent use of products with high levels of its main psychoactive ingredient delta-9-tetrahydrocannabinol (Δ 9-THC), can cause dependence and have transient and long-lasting detrimental mental health effects, also negatively impacting cognitive processing and brain function and metabolism. In regular users, the development of tolerance to some of the effects of cannabis, especially the pleasurable ones, may lead to progressively heavier use in order to obtain the same effects in terms of their intensity, with higher health risks. However, the Cannabis Sativa plant contains different chemicals with different potential effects. In this regard, cannabidiol has gained interest because of its potential therapeutic properties, in line with evidence that CBD and Δ 9-THC may exhibit opposite effects at the cannabinoid receptor type 1 (CB1), Δ 9-THC being a partial agonist and CBD an antagonist/inverse agonist. Different cannabinoids may modulate human brain function and behavior in different ways, with different risk-benefit profiles.

ADVANCED DRYING TECHNOLOGIES, SECOND EDITION

CRC Press Presents Drying Breakthroughs for an Array of Materials Despite being one of the oldest, most energy-intensive unit operations, industrial drying is perhaps the least scrutinized technique at the microscopic level. Yet in the wake of today's global energy crisis, drying research and development is on the rise. Following in the footsteps of the widely read first edition, Advanced Drying Technologies, Second Edition is the direct outcome of the recent phenomenal growth in drying literature and new drying hardware. This edition provides an evaluative overview of new and emerging drying technologies, while placing greater emphasis on making the drying process more energy efficient in the green age. Draws on the Authors' 60+ Years of Combined Experience Fueled by the current energy crisis and growing consumer demand for improved quality products, this thoroughly updated resource addresses cutting-edge drying technologies for numerous materials such as high-valued, heat-sensitive pharmaceuticals, nutraceuticals, and some foods. It also introduces innovative techniques, such as heat-pump drying of foods, which allow both industrial practice and research and development projects to save energy, reduce carbon footprints, and thus improve the bottom line. Four New Chapters: Spray-Freeze-Drying Fry Drying Refractance Window Drying Mechanical Thermal Expression Requiring no prior knowledge of chemical engineering, this single-source reference should assist researchers in turning the laboratory curiosities of today into the revolutionary novel drying technologies of tomorrow.

INTERNATIONAL ELECTRONICS DIRECTORY '90

THE GUIDE TO EUROPEAN MANUFACTURERS, AGENTS AND APPLICATIONS

Elsevier International Electronics Directory '90, Third Edition: The Guide to European Manufacturers, Agents and Applications, Part 1 comprises a directory of various manufacturers in Europe and a directory of agents in Europe. This book contains a classified directory of electronic products and services where both manufacturers and agents are listed. This edition is organized into two sections. Section 1 provides details of manufacturers, including number of employees, production program, names of managers, as well as links with other companies. The entries are listed alphabetically on a

country-by-country basis. Section 2 provides information concerning agents or representatives, including names of manufacturers represented, names of managers, number of employees, and range of products handled. A number of these companies are also active in manufacturing and so appear in both Section 1 and Section 2. This book is a valuable resource for private consumers.

WORLD ARMAMENTS AND DISARMAMENT

SIPRI YEARBOOK, 1977

Mit Press The SIPRI Yearbooks describe as factually as possible the major quantitative and qualitative changes that take place each year in the world's arsenals, and analyze the efforts made to control them. Much of the information in the Yearbooks—nuclear weapon testing, chemical and biological warfare, the arms trade, and military budgets, for example—is not available or covered as thoroughly anywhere else. The Yearbook for 1974, 1975, and 1976 are also available from The MIT Press in the United States, The British Commonwealth, and Latin America.

STANDARD CATALOG OF MILITARY FIREARMS

THE COLLECTOR'S PRICE AND REFERENCE GUIDE

Gun Digest Books Your One-Volume Guide to Collectible Military Firearms! It's Standard Catalog of Military Firearms, 6th Edition! If you collect military firearms, your best insurance policy is to know what you're collecting and how much it's worth. There's no better source of this knowledge than the updated, revised 6th edition of Phillip Peterson's *Standard Catalog of Military Firearms*. From handguns to rifles to shotguns and fully-automatic machineguns and submachineguns, *Standard Catalog of Military Firearms* provides a remarkable complete guide to the world's military firearms and their accessories. It's all here: Detailed descriptions and values for the world's military firearms, from Argentina to Yugoslavia Descriptions and values for related accessories including clips, magazines, bayonets and holsters All-new entries for antique, pre-cartridge era military firearms And much more! Protect yourself! Don't pay too much for military firearms—or sell for too little! Know what your collection is worth with *Standard Catalog of Military Firearms, 6th edition!*

UMTA-MA

PROFILE OF THE INTERNATIONAL FILTRATION AND SEPARATION INDUSTRY

MARKET PROSPECTS TO 2009

Elsevier The total world sales of filtration and separation equipment and spares are estimated at US\$29.5 billion in 2003. Good growth is forecast to continue through to 2009, on the back of the expansion in China, and the fresh and wastewater segment growth rates, with a CAGR of more than 6%." --Profile of the International Filtration and Separation Industry - Market Prospects to 2009, 5th Edition This revised and updated 5th edition includes increased coverage on the strategic direction of the industry, plus it offers forecasts, analysis and comment on the filtration and separation industry to 2009. The study also outlines the structure of the global industry, assesses market and technological trends, offers market figures and forecasts to 2009 and identifies the major players.

THE KALAHARI TYPING SCHOOL FOR MEN

Anchor Fans around the world adore the bestselling No. 1 Ladies' Detective Agency series and its proprietor, Precious Ramotswe, Botswana's premier lady detective. In this charming series, Mma Ramotswe—with help from her loyal associate, Grace Makutsi—navigates her cases and her personal life with wisdom, good humor, and the occasional cup of tea. Mma Precious Ramotswe is content. Her business is well established with many satisfied customers, and in her mid-thirties ("the finest age to be") she has a house, two adopted children, a fine fiancé. But, as always, there are troubles. Mr. J.L.B. Matekoni has not set the date for their marriage. Her able assistant, Mma Makutsi, wants a husband. And worse, a rival detective agency has opened in town—an agency that does not have the gentle approach to business that Mma Ramotswe's does. But, of course, Precious will manage these things, as she always does, with her uncanny insight and her good heart.

FUNDAMENTALS OF NOISE AND VIBRATION

CRC Press Fundamentals of Noise and Vibration is based on the first semester of the postgraduate Masters' course in Sound and Vibration Studies at the Institute of Sound and Vibration Research, at the University of Southampton. The main objective of the course is to provide students with the skills and knowledge required to practise in the field of noise and vibration control technology. Readers do not need prior formal training in acoustics although a basic understanding of mechanics, fluid dynamics and applied mathematics is required. Many of the chapters use examples of models and forms of analysis to illustrate the principles that they introduce. By pointing toward the practical application of these fundamental principles and methods, the book will benefit those wishing to extend their knowledge and understanding of acoustic and vibration technology for professional purposes. Advanced Applications in Acoustics, Noise and Vibration serves as a companion volume.

TOTAL TRAINING FOR YOUNG CHAMPIONS

Human Kinetics Collects conditioning programs for athletes between the ages of six and eighteen, offering over three hundred exercises for increasing coordination, flexibility, speed, endurance, and strength

SUSTAINABLE POWER SYSTEMS

MODELLING, SIMULATION AND ANALYSIS

Springer This book deals with quantifying and analyzing the risks associated with sustainable energy technology growth in electric power systems, and developing appropriate models and methodologies to mitigate the risks and improve the overall system performance. The rapid increase in the installation of renewable energy sources in electric power systems has given rise to a wide range of problems related to planning and operation of power systems to maintain quality, stability, reliability and efficiency. Additionally, there is a growing global environmental concern regarding increasing emissions from the electric power generation required to meet rising energy needs and support sustainable and inclusive development. The phenomenon of low voltage ride through (LVRT), common to wind energy systems, is discussed, and ways to tackle the same are proposed in the first chapter. Subsequent chapters propose methods of optimizing a sustainable and smart microgrid, and supplying electricity to remote areas of a developing country with no immediate possibility of national grid extension. The economic benefit and technical challenges of forming localized minigrid are also discussed. The book proposes a method for reliability assessment of a power grid with sustainable power transportation system. The issue of weak link in power system is very important as it will provide the system operators and planners to take necessary measures to strengthen the system. An approach to determine the weak parts of the system and its unreliability is proposed. With increasing installation of HVDC power transmission and development of efficient and low cost power electronic devices, the DC microgrids are becoming a common phenomenon. Their existence together with AC Grids result in Hybrid AC/DC Microgrids, which are discussed in this book. It further presents a method for reliability evaluation of a distribution system with network reconfiguration in the presence of distributed generation. The important problems in sustainable energy growth, and their potential solutions discussed and presented in the book should be of great interest to engineers, policy makers, researchers and academics in the area of electric power engineering.

U.N. SPECIAL SESSION ON DISARMAMENT

HOG OUTLOOK

SIPRI YEARBOOK 2004

ARMAMENTS, DISARMAMENT AND INTERNATIONAL SECURITY

SIPRI Yearbook The 35th edition of the SIPRI Yearbook analyses developments in 2003 in o Security and conflicts o Military spending and armaments o Non-proliferation, arms control and disarmament The SIPRI Yearbook contains extensive annexes on the implementation of arms control and disarmament agreements and a chronology of events during the year in the area of security and arms control. Studies in this volume: o Iraq: the legacy o Euro-Atlantic organizations and relationships o The Iraq war: enduring controversies and challenges o Major armed conflicts and multilateral peace missions o

Post-conflict justice: developments in international courts o China's new security multilateralism and implications for the Asia-Pacific region o National defence reform and the African Union o Security sector reform in the Western Balkans o Sciences and technology-based military innovation: the United States and Europe. o World military expenditure and arms production o Military expenditure in the Middle East and the Iraq war o Arms industries in Belarus, Russia and Ukraine o International arms transfers and the suppliers of ballistic missile technology o Biological weapons and potential indicators of offensive biological weapon activities o Major trends in arms control and non-proliferation o Nuclear arms control and non-proliferation, world nuclear forces and ballistic missile defence o Chemical and biological warfare developments and arms control o The SARS epidemic and biochemical weapon threats o Conventional arms control o Transfer controls and arms destruction programmes o Withdrawal from arms control treaties The annual accounts and analyses are extensively footnoted, providing a comprehensive bibliography in each subject area.

THE GAME OF DISARMAMENT

HOW THE UNITED STATES AND RUSSIA RUN THE ARMS RACE

Manchester University Press

SIPRI YEARBOOK 1988

WORLD ARMAMENTS AND DISARMAMENT

Oxford University Press on Demand This annual report continues and updates SIPRI's charting of the latest developments in nuclear weapons, nuclear explosions, world military expenditure, the international arms trade, chemical and biological weapons, conventional weapon technology, the military use of outer space, and current armed conflicts of the world. The Yearbook also describes efforts to control the arms race, and analyzes the status of negotiations and agreements. A special section reviews the INF treaty signed in December 1987 by the United States and the Soviet Union, the ABM Treaty, the Iran-Iraq war, and disarmament and development.

PROFILE OF THE INTERNATIONAL FILTRATION & SEPARATION INDUSTRY

MARKET PROSPECTS TO 2006

Elsevier This fourth edition of Profile of the International Filtration and Separation Industry - Market Prospects to 2006 reviews the markets, technological trends and major manufacturers of filtration and separation equipment on an international basis. The Profile looks at all aspects, both quantitative and qualitative, of the market for filtration and separation equipment as it existed in the second half of 2001 with forecasts to 2006. In addition to process filters, engine filters of all kinds are covered as well as vehicle, commercial and domestic air conditioning filters, catering filters, domestic water filters

etc. Chapter 1 has an overview of the world economy. Chapter 2 covers the international filtration and separation market, with a summary of major trends, with market figures and forecasts to 2006, along with some filtration trade data. Chapter 3 looks at the main end-user markets for filtration and separation products. Chapter 4 is a brief review of the latest trends in filtration and separation technology. Chapter 5 profiles 40 leading international companies in the filtration and separation business. Chapter 6 is a directory of approximately 1000 companies and organizations involved in the business. The details given include address, telephone and fax numbers, web addresses, as well as parent company, main products and application areas, named key executives, numbers of employees, and sales figures where possible. The directory includes equipment and media manufacturers and suppliers worldwide, which are also indexed by product type. Chapter 7 is a directory of relevant web addresses. Chapter 8 includes appendices of related information. For a PDF version of the report please call Steve Kimber on +44 (0) 1865 843666 for price details.
