Accounting

The tenth edition of Accounting (Hoggett et al.) provides an introductory but comprehensive description of the purpose, practice and process of contemporary international financial and management accounting in an Australian context. With the increased emphasis on the globalisation of business, the material is ideal for the study of introductory accounting in a broad international context. The tenth edition

builds on the strengths of previous editions with a strong focus on the decision-making role of accounting, as well as on a student's acquisition of generic skills such as communication, analytical, problem solving, critical thinking and judgement skills. The technical skills required in the application of accounting concepts still remain a core objective of the new edition.

Islamic Finance and the New Financial System

An Ethical Approach to Preventing Future Financial Crises

John Wiley & Sons Can Islamic finance save the global system? Islamic Finance and the New Financial System describeshow the adoption of Islamic finance principles in future regulatorydecisions could help prevent future shocks in the global financialsystem. Using illustrations and examples to highlight key points inrecent history, this book discusses the causes of financial crises,why they are becoming more frequent and increasingly severe, andhow the new financial system will incorporate elements of Islamicfinance - whether deliberately or not. With an introspectivelook at the system and an examination of the misconceptions anddeficiencies in theory vs. practice, readers will learn why Islamicfinance has not been as influential as it should be on the largerglobal system. Solutions to these crises are thoroughly detailed,and the author puts forth a compelling argument about what can beexpected in the future. Despite international intervention and global policy changes,the financial system remains in a fragile state. There is anargument to be made about integrating Islamic finance into the newsystem to facilitate stronger resilience, and this book explainsthe nuts and bolts of the idea while providing the reader with ageneral understanding of Islamic finance.

Understand the key principles of Islamic finance Examine the history of the current financial system Discover how Islamic finance can help build a new debt-free economy Learn how Islamic finance theory doesn't always dictate practice Although Islamic finance is a growing market, it is still a foreign concept to many. Those within the Islamic finance circles wonder why the system has yet to gain broader appeal despite its ability to create a strong and well-balanced economy. Islamic Finance and the New Financial System provides clever analysis and historical background to put the issues into perspective.

Intermediate Accounting Update Edition with CD-ROM, Net Tutor, Powerweb, Alternate Exercises and

Problems

Intermediate Accounting, 3e, by Spiceland/Sepe/Tomassini will gain support in traditional and technology-driven accounting departments, especially those looking for a more concise, decision-making text that reinforces challenging concepts via CD-ROM. The revision of this text is based around a "Learning System." The revision of this "Learning System" was built on improving the clarity of the chapters, emphasizing more decision-making in order to prepare students for the changes taking place on the CPA exam, acknowledging the diversity of students and their learning styles by creating supplemental materials to assure the success of every student, and creating a consistent text and supplemental package for both students and instructor's giving us the best possible intermediate text on the market. Returning to the Third edition is the award winning "Coach" CD-ROM. The Coach CD-ROM is a multimedia product integrating audio and video clips, animated illustrations, cases, and alternative reading material that helps students comprehend some of the more difficult topics associated with intermediate accounting. Designed specifically for the Spiceland text, instructors and students will find these learning tools placed strategically throughout the text. This is the most comprehensive Learning System in Intermediate Accounting. At only 1120 pages (300 pages less than the average intermediate accounting text), Spiceland/S/T has not sacrificed content for pages. Instead, the authors have created a very flexible text with a student friendly writing style that focuses on explaining not just how to apply a procedure, but why it's applied.
