**What a Carry on The Official Story of the Carry on Film Series Projecting Empire Imperialism and Popular Cinema** *Bloomsbury Publishing* Popular cinema is saturated with images and narratives of empire. With "Projecting Empire", Chapman and Cull have written the first major study of imperialism and cinema for over thirty years. This welcome text maps the history of empire cinema in both Hollywood and Britain through a series of case studies of popular films including biopics, adventures, literary adaptations, melodramas, comedies and documentaries, from the 1930s and "The Four Feathers" to the present, with "Indiana Jones" and "Three Kings". The authors consider industry-wide trends and place the films in their wider cultural and historical contexts. Using primary sources that include private papers, they look at the presence of particular auteurs in the cinema of Imperialism, including Korda, Lean, Huston and Attenborough, as well as the actors who brought the stories to life, such as Elizabeth Taylor and George Clooney. At a time when imperialism has a new significance in the world, this book will fulfil the needs of students and interested filmgoers alike.

**BRITISH WAR FILMS, 1939 - 45** *A&C Black* The cinema was the most popular form of entertainment during the Second World War. Film was a critically important medium for influencing opinion. Films, such as In Which We Serve and One of Our Aircraft is Missing, shaped the British people's perceptions of the conflict. British War Films, 1939-45 is an account of the feature films produced during the war, rather than government documentaries and official propaganda, making the book an important index of British morale and values at a time of desperate national crisis.

**Conspiracy Theories and the People Who Believe Them** *Oxford University Press* Conspiracy theories are inevitable in complex human societies. And while they have always been with us, their ubiquity in our political discourse is nearly unprecedented. Their salience has increased for a variety of reasons including the increasing access to information among ordinary people, a pervasive sense of powerlessness among those same people, and a widespread distrust of elites. Working in combination, these factors and many other factors are now propelling conspiracy theories into our public sphere on a vast scale. In recent years, scholars have begun to study this genuinely important phenomenon in a concerted way. In *Conspiracy Theories and the People Who Believe Them*, Joseph E. Uscinski has gathered forty top researchers on the topic to provide both the foundational tools and the evidence to better understand conspiracy theories in the United States and around the world. Each chapter is informed by three core questions: Why do so many people believe in conspiracy theories? What are the effects of such theories when they take hold in the public? What can or should be done about the phenomenon? Combining systematic analysis and cutting-edge empirical research, this volume will help us better understand an extremely important, yet relatively neglected, phenomenon.

**The Official Organ Of the Independent Order of Good Templars, State of New York The Truth Agenda Making Sense of Unexplained Mysteries, Global Cover-Ups & Visions for a New Era** *SCB Distributors* The Truth Agenda explores some of the most famous unexplained mysteries and global cover-ups of recent history. What is the truth about UFOs, pyramids, religious apparitions, psychic phenomena, visions of the future and ancient prophecies, and what is their connection to famous conspiracy theories concerning the Moon landings, 9/11, the New World Order, and claims that the planet is secretly run by a powerful ruling elite? Leading mysteries researcher Andy Thomas pulls the many threads together in an accessible, stimulating and credible overview which suggests that our world may be very different from the picture presented by the establishment. The Truth Agenda shows how we can avoid control manipulations and help to create a more positive future. Why do so many people believe in conspiracy theories, and what is the evidence to support them? What is the basis for the wide belief that we are now in a 'New Era' of massive change and consciousness shift? Why is there such huge but officially undeclared interest in paranormal phenomena from authorities and religions? How does all this tie together and explain the agendas of control and surveillance in the West, and what can we do?

**Photoplay Like the Sound of a Drum Aboriginal Cultural Politics in Denendeh and Nunavut** *Univ. of Manitoba Press* Part ethnography, part narrative, *Like the Sound of a Drum* is evocative, confrontational, and poetic. For many years, Peter Kulchyski has travelled to the north, where he has sat in on community meetings, interviewed elders and Aboriginal politicians, and participated in daily life. In *Like the Sound of a Drum* he looks at three northern communities — Fort Simpson and Fort Good Hope in Denendeh and Pangnirtung in Nunavut — and their strategies for maintaining their political and cultural independence. In the face of overwhelming odds, communities such as these have shown remarkable resources for creative resistance. In the process, they are changing the concept of democracy as it is practised in Canada.

**Imagining America at War Morality, Politics and Film** *Routledge* Ten films released between 9/11 and Gulf War II reflect raging debates about US foreign policy and what it means to be an American. Tracing the portrayal of America in the films Pearl Harbor (World War II); We Were Soldiers and The Quiet American (the Vietnam War); Behind Enemy Lines, Black Hawk Down and Kandahar (episodes of humanitarian intervention); Collateral Damage and In the Bedroom (vengeance in response to loss); Minority Report (futurist pre-emptive justice); and Fahrenheit 9/11 (an explicit critique of Bush's entire war on terror), Cynthia Weber presents a stimulating new study of how Americans construct their identity and the moral values that inform their foreign policy. This is not just another book about post-9/11 America. It introduces the concept of 'moral grammars of war', and explains how they are articulated: Many Americans asked in the wake of 9/11 – not only 'why do they hate us?' but 'what does it mean to be a moral America(n) and how might such an America(n) act morally in contemporary international politics? This text explores how these questions were answered at the intersections of official US foreign policy and post-9/11 popular films. It also details US foreign policy formation in relation to traditional US narratives about US identity 'who we think we were/are', 'who we wish we'd never been', 'who we really are', and 'who we might become' as well as in relation to their foundations in nationalist discourses of gender and sexuality. This book will be of great interest to students of American Studies, US Foreign Policy, Contemporary US History, Cultural Studies, Gender and Sexuality Studies and Film Studies.

**Rituals of Mediation International Politics and Social Meaning** *U of Minnesota Press* A timely consideration of the meaning of transnational cultural interactions today. In an era of increasing globalization, the cultural and the international have borders as permeable as most nations'--and an understanding of one requires making sense of the other. Foregrounding the role of mediation--understood here as a site of representation, transformation, and pluralization--the authors engage two specific questions: How might we make theoretical and practical sense of transnational cultural interactions? And how are we to understand the ways in which the sites of mediation represent, transform, and remediate internationals? Accordingly, the authors consider international issues like security, development, political activism, and the war against terrorism through the lens of cultural practices such as traveling through airports, exhibiting art and photography, logging on to the Internet, and spinning news stories.

**The British National Bibliography Off and Online Journalism and Corruption International Comparative Analysis** *BoD - Books on Demand* This book provides a new theoretical framework of determinants that interact together in five hierarchical levels to restrain or produce corruption. The theory suggests a multilevel analysis that tests hypotheses regarding the relations of journalism and corruption within each level and across levels in international comparative research designs. Corruption as the abuse of power for private gain is built into the journalistic, economic, political, and cultural structures of any society and is affected by its interaction within the international system. The important questions of how differences in corruption across countries can be explained or what makes it more or less in a particular society and how press freedom and social media contribute to the fight against corruption are still unanswered. This book represents a significant contribution on the way to answer these critical questions. It discusses a variety of journalism-corruption experiences that provide a wealth of results and analyses. The cases it examines extend from Cuba to Algeria, India, Saudi Arabia, Sub-Saharan African, Gulf Cooperation Countries, Arab World, and Japan. The primary contribution of this book is both theoretical and empirical. Its details as well as the general theoretical frameworks make it a useful book for scholars, academics, undergraduate and graduate students, journalists, and policy makers.

Through a Catholic Lens looks at the Catholic subtext through a collection of studies of 19 film directors from around the world whose Catholic backgrounds can be found in their writing and directing. **Love Now, Pay Later? Sex And Religion In The Fifties And Sixties** SPCK Nigel Yates brings together the religious and social dimensions of the 1950s and 60s and examines the enormous changes in moral attitudes that took place in these two decades. Much of the popular literature on post-war Britain tends to present the 1950s as a period of continuing repression and respectability in the area of private and public morality, and the 1960s as one in which there was rapid social change. Using a wide range of contemporary sources - books (including novels), magazines, newspapers, advertising, fashion catalogues, films and television, as well as a number of significant archive collections - Nigel Yates argues that changes in attitudes to religion and morality in the 1960s were only made possible by developments in the 1950s. **Struggles for Representation African American Documentary Film and Video** Indiana University Press Struggles for Representation examines over 300 non-fiction films by more than 150 African American film/videomakers and includes an extensive filmography, bibliography, and excerpts from interviews with film/videomakers. In eleven original essays, contributors explore the extraordinary scope of these aesthetic and social documents and chart a previously undiscovered territory: documentaries that examine the aesthetic, economic, historical, political, and social forces that shape the lives of black Americans, as seen from their perspectives. Until now, scholars and critics have concentrated on black fiction film and on mainstream non-fiction films, neglecting the groundbreaking body of black non-fiction productions that offer privileged views of American life. Yet, these rich and varied works in film, video, and new electronic media, convey vast stores of knowledge and experience. Although most documentary cannot hope to match fiction film's mass appeal, it is unrivaled in its ability to portray searing, indelible impressions of black life, including concrete views of significant events and moving portraits of charismatic individuals. Documentary footage brings audiences the moments when civil rights protestors were attacked by state troopers; it provides the sights and sounds of Malcom X delivering an electrifying speech, Betty Carter performing a heart-wrenching song, and Langston Hughes strolling on a beach. Uniting all of this work is the "struggle for representation" that characterizes each film—an urgent desire to convey black life in ways that counter the uninformed and often distorted representations of mass media film and television productions. African American documentaries have long been associated with struggles for social and political empowerment; for many film/videomakers, documentary is a compelling mode with which to present an alternative, more authentic narrative of black experiences and an effective critique of mainstream discourse. Thus, many socially and politically committed film/videomakers view documentary as a tool with which to interrogate and reinvent history; their works fill gaps, correct errors, and expose distortions in order to provide counter-narratives of African American experience. Contributors include Paul Arthur, Houston A. Baker, Jr., Mark F. Baker, Pearl Bowser, Janet K. Cutler Manthia Diawara, Elizabeth Amelia Hadley, Phyllis R. Klotman, Tommy Lee Lott, Erika Muhammad, Valerie Smith, and Clyde Taylor. **Piercing the Fog of 9/11** Lulu.com We have been told that we were attacked by 19 Muslim fanatics on 9/11. Through this compelling memoir, the author reveals the fear these warriors share not of the enemy they have been trained to fight in battle, but of the wrath of the U.S. government should they find themselves classified as "expendable." **A Dangerous Business** Murder Room A chance sighting in a café in Amsterdam gives solicitor Rosa Epton an unwelcome shock. At a nearby table sits an ex-client who should be behind bars, having recently been sentenced to five years in prison. So what is Eddie Ruding doing in Amsterdam a few weeks later? On her return to England, Rosa makes a few discreet enquiries, only to draw a blank. But just as she has decided to try to put the matter out of her mind, a newspaper report shocks her into action. Eddie Ruding has been found dead, his crumpled body lying at the foot of the walls of Wandsworth Prison. Rosa, however, is not the only person on the dead man's trail. Everyone from inquisitive journalists to MI5 appears to be taking an interest - and none so much as the dead man's mother, a cockney matriarch with a score to settle. **What's News The Media in American Society** Transaction Publishers The twelve thought-provoking essays comprising What's News review recent trends and events that have serious implications for both print and broadcast media in America. The book offers a new approach to global mental health, arguing that the use of outdated and outmoded ways in which psychiatry is researched and practiced is a thing of the past, that social justice can only be achieved through a more democratic approach to mental health care and emphasising that the inclusion of cultural and traditional healing methods and practices are vital to meeting diverse needs. Split into five parts, the book covers: Critique of Western Psychiatry and Mental Health Challenges and Opportunities in Mental Health Care Training and Development in Mental Health Practice Transnational Contexts: Engaging the work of Suman Fernando Personal Reflections on Suman Fernando's Life and Work Critical Psychiatry and Mental Health is ideal for researchers and practitioners in health and mental health, psychiatry, counselling and psychotherapy and anyone interested in the intersection of race, culture and mental health. **So I'm a Spider, So What?, Vol. 8 (light novel)** Yen Press LLC Deification is one hell of a nerf... Comparing the popular political cultures and discourses of postcolonial Mexico and Peru, Florencia Mallon provides a groundbreaking analysis of their effect on the evolution of these nation states. As political history from a variety of subaltern perspectives, the book takes seriously the history of peasant thought and action and the complexity of community politics. It reveals the hierarchy and the heroism, the solidarity and the surveillance, the exploitation and the reciprocity, that coexist in popular political struggle. With this book Mallon not only forges a new path for Latin American history but challenges the very concept of nationalism. Placing it squarely within the struggles for power between colonized and colonizing peoples, she argues that nationalism must be seen not as an integrated ideology that puts the interest of the nation above all other loyalties, but as a project for collective identity over which many political groups and coalitions have struggled. Ambitious and bold, Peasant and Nation both draws on monumental archival research in two countries and enters into spirited dialogue with the literatures of post-colonial studies, gender studies, and peasant studies. **Carry Me Home** Createspace Independent Pub Returning to Carver hasn't been the same since Jesse left, but after almost four years, Riley Regas has gotten used to it. This book is also a personal account and compliment to the many people who fought so valiantly to broadcast truth and liberal commentary, while the entire broadcast media was dominated and censored by the Conservative right wing, the G.W Bush administration and the cabal of Muslim hating warmongers, famously known as the NeoCons. Naked at the Mic also commemorates the many people who stood up against the G.W Bush administration, and their nightmare of genocide and slaughter in the Middle East, and the cruel, corrupt and oppressive government they imposed on the American people during their reign of terror and torture from 2000 to 2008. I also speak honestly about the 2008 presidential candidates and the election of Barack Obama, and why I voted for him, and my great disappointment, after his horrific betrayal of all who elected him. The research for Naked at the Mic entailed over 5000 news articles that I have personally archived and preserved on paper, to verify every quote and reference I make, and over 100 books and interviews of authors, activists and politicians on 400 archived radio shows and ten televised documentaries I had produced up to 2009, when I completed writing this book. It is an honest look back through time at people and events, that have been at the forefront of national and world changing events. Naked at the Mic is a historical record of one of the most volatile decades in American and world history. It discusses many of the most important national and international issues from 2000-2009, the corrupt 2000 presidential election, 9/11, the Afghanistan and Iraq invasions, Katrina, and exposes the massive corporate, financial and political corruption and mass media coverups up to the end of 2009. I honestly discuss and expose left and right wing politics, and give a unique front line perspective of the massive sea change of American Society, that caused G.W Bush's 75 percent approval rating in 2001, to his final approval rating of 24% in 2008. Naked at the Mic is honest, fast moving, highly informative and well researched, and is an accurate, historical account of one of the most politically conservative, and most destructive periods in American history, that has led to the current economic, military and moral demise of America. Ralph Waldo Emerson once stated in his famous essay The Oversoul Oh, Believe that every word that was meant for thine ear to hear will come to thee. I believe a lot of people are meant to hear what this book has to say. L.A. Steel **School Bullying New Theories in Context** Cambridge University Press Bullying is a socially and culturally complex phenomenon that until now has largely been understood in the context of the individual. This book challenges the dominance of this approach, examining the processes of extreme exclusion that are enacted in bullying - whether at school, through face-to-face meetings or virtual encounters - in the context of group dynamics. Contributors draw upon qualitative empirical studies, mixed methods and statistics, to analyse the elements that allow bullying to emerge - the processes that produce exclusion and contempt, and the relations between children, teachers and parents. Introducing a new definition of bullying, this book goes on to discuss directions for future research and action, including more informed intervention strategies and re-thinking methods of prevention. Exploring bullying in the light of the latest research from a wide variety of disciplines, this book paves the way for a new paradigm through which to understand the field.
