**ESCAPING THE TOXIC CULTURE OF SELF-LOVE**

---

**Penguin** *From one of the sharpest Christian voices of her generation and host of the podcast Relatable comes a framework for escaping our culture of trendy narcissism—and embracing God instead. We're told that the key to happiness is self-love. Instagram influencers, mommy bloggers, self-help gurus, and even Christian teachers promise that if we learn to love ourselves, we'll be successful, secure, and complete. But the promise doesn't deliver. Instead of feeling fulfilled, our pursuit of self-love traps us in an exhausting cycle: as we strive for self-acceptance, we become addicted to self-improvement. The truth is we can't find satisfaction inside ourselves because we are the problem. We struggle with feelings of inadequacy because we are inadequate. Alone, we are not good enough, smart enough, or beautiful enough. We're not enough--period. And that's okay, because God is. The answer to our insufficiency and insecurity isn't self-love, but God's love. In Jesus, we're offered a way out of our toxic culture of self-love and into a joyful life of relying on him for wisdom, satisfaction, and purpose. We don't have to wonder what it's all about anymore. This is it. This*

*book isn't about battling your not-enoughness; it's about embracing it. Allie Beth Stuckey, a Christian, conservative new mom, found herself at the dead end of self-love, and she wants to help you combat the false teachings and self-destructive mindsets that got her there. In this book, she uncovers the myths popularized by our self-obsessed culture, reveals where they manifest in politics and the church, and dismantles them with biblical truth and practical wisdom.*

## **28MEN**

---

**Trafford Publishing** *Revenge was just one of the catalysts responsible for the disposal of the Australian Commonwealth Shipping Line to Great Britain. In reality the final sale was a gift to a conglomerate of British shipowners; five new passenger ships and two large special purpose vessels all that remained of 57 ships. Ships sold for little more than their scrap value with a small down payment followed by default. 28men depicts an explosive period of endemic industrial disputation, the near general strike that crippled New South Wales in 1917. During this volatile period of strikes, union power, political intrigues and a world at war, there emerged from near anarchy a conservative cohesion of political forces within the Australian government. A coalition of Nationalist and Country Party had ample justification to crush the union movement; the Moreton Bay debacle as flagship of the Sydney Harbour Regatta, the Bass Strait ferry Loongana near tragedy, and the doomed union struggle against the introduction of a foreign time and motion regime. On a permanent confrontational footing strode the Wobblies through the shambles, Industrial Workers of the World who fearlessly fought the establishment with sometimes disastrous results. Out of this turmoil a chance meeting in New York between a young Australian seaman and an I.W.W. organiser grew a love story as turbulent as the period.*

### MY ZOMBIE SUMMER: PART ONE

---

**Dpk, Incorporated** *Nothing brings the family together like a zombie apocalypse ... Fifteen-year-old Jeremy Barnes would rather watch a zombie movie than shoot a real one, but he has no choice if his family wants to survive the end of the world. Their plan? Drive across the infected United States to a cabin in the Colorado Rockies without a scratch, but their trip takes a complicated detour in the middle of Nebraska when they find Kaylynn, a girl who can handle a baseball bat better than Jeremy can hold a .45 Beretta. And when they stumble into a sanctuary, Jeremy soon learns that Kaylynn is stronger than she looks—a deadly secret lies inside her. After the radio picks up a distress call from Kansas City about a possible cure, Jeremy's parents go with a team to investigate. They never return. The only way to find their parents is for Jeremy and his sister Jewel to rely on a dangerous girl who might just turn on them at any moment.*

---

---

### SILK FOR SILVER, 1600-1730

---

**Cambridge University Press** *This is the first book to consider the economic, social and political importance of the silk trade in Safavid Iran. It focuses on four aspects of this trade; the role of silk in Iranian commercial policy, the interaction between agents of the state and foreign merchants, the routes along which silk was transported and, critically, the economic and social difficulties which contributed to the collapse of the regime in the 1720s. This represents a major contribution to the current debates on the social and economic history of the pre-modern world.*

## DO WHAT YOU BELIEVE

---

**Post Hill Press** *This time the soul of America really is at stake. Sure, for many years we've heard this language dramatically and cynically utilized during political campaigns, but this time it's actually true. American Exceptionalism faces more systemic threats and existential peril than ever before. A culture that can't agree on what a border, citizen, criminal, law, constitution, life, or even the truth is probably doesn't have long to last. But as Jesus warned in Matthew 9:37, "The harvest is plenty but the workers are few." Either we*

Pilgrims “having undertaken the glory of God” and Great Awakenings are what gave birth to liberty on this continent in the first place. And without a revival of those first things in our time, that liberty will be lost for good. This will be the generation that determines the fate of the West. This is a blueprint and battleplan for such a time as this.*

## **THE MUSLIM EMPIRES OF THE OTTOMANS, SAFAVIDS, AND MUGHALS**

---

**Cambridge University Press** *Between 1453 and 1526 Muslims founded three major states in the Mediterranean, Iran and South Asia: respectively the Ottoman, Safavid, and Mughal empires. By the early seventeenth century their descendants controlled territories that encompassed much of the Muslim world, stretching from the Balkans and North Africa to the Bay of Bengal and including a combined population of between 130 and 160 million people. This book is the first comparative study of the politics, religion, and culture of these three empires between 1300 and 1923. At the heart of the analysis is Islam, and how it impacted on the political and military structures, the economy, language, literature and religious traditions of these great empires. This original and sophisticated study provides an antidote to the modern view of Muslim societies by illustrating the complexity, humanity and vitality of these empires, empires that cannot be reduced simply to religious doctrine.*

## **PORTUGAL, THE PERSIAN GULF AND SAFAVID PERSIA**

---

**Peeters Pub & Booksellers** *The Portuguese were the first Europeans to play a major commercial, military and diplomatic role in the Persian Gulf basin. They first appeared before Hormuz in 1507, established a toll house on the island in 1515, and remained active in the wider region for the next two centuries. This book commemorates the quincentennial of their arrival in the Persian Gulf. Its contributors offer an array of fresh research on their activities on Hormuz and beyond, examining these from a variety of angles, with special attention to the wider context involving the adjacent Safavid, Ottoman and Mughal states. The essays presented here explore the commercial and military activities of the Portuguese, their rivalry with the Ottoman state for naval control in the Gulf, and their interaction with Safavid Persia by way of missionary ventures, diplomacy and travel, but also represent new and exciting research on the historiographical record of their presence in the form of cartography and the discourse about Persia it generated in Portugal.*

## THE MORRIGAN'S CURSE

---

**HarperCollins** Adventure, action, and magic collide in the latest installment of the series that School Library Journal called "fast paced and exciting." In the third book of the series that VOYA recommends "for fans of Percy Jackson and Harry Potter," the war over the Eighth Day continues—and there's more at stake than ever before. The battle between Kin and Transitioners that's been brewing for centuries has finally come to a head. The sinister Kin have captured Evangeline's younger sister, Addie, a descendant of Merlin whose presence will allow them to reverse the Eighth Day Spell and free themselves. Addie doesn't realize the full consequences of her cooperation. She's been helping the Kin because they value the strength of her magic—something Evangeline never did. The feeling of power coursing through her veins is impossible to resist. Meanwhile, Riley, Evangeline, and Jax craft a plan to rescue Addie from her captors. But the Kin's unstoppable magic, and a rebellious Addie, force Riley to reconsider whether saving Addie is worth sacrificing everyone who lives in the seven-day week. Jax won't let Evangeline's sister be used as a pawn, so he risks it all in a secret mission of his own. With the Morrigan pushing both sides of the war toward annihilation, Addie must decide where her loyalties lie, while Jax, Riley, and Evangeline confront the possibility of losing Addie to save the world.

### DUTCH-ASIATIC TRADE 1620 - 1740

---

**Springer Science & Business Media** *The present monograph has grown out of a good many years of study of the history of the European trade to the East Indies. The starting-point actually was Danish. Having treated the history of the Danish Asiatic Company during the period 1732-1772 I went abroad in order to familiarize myself with the background to the reorganization of Danish trade about 1732. It was especially the possible connexion with the dissolved Ostend Company and the counter-measures, diplomatic as well as economic, of the Dutch, English, and French companies that interested me. Through these investigations I got acquainted with the various Northwest European company records and soon realized that the Dutch archives offered a rich material, especially as regards quantities and prices. A study on the Dutch Company's trade in Japanese copper, a subject which had previously occupied Scandinavian historians in connexion with the question of the status of Swedish copper on the European market in the 17th century, amplified my knowledge of the archives in the Hague to such a degree that I dared to tackle the greater object of giving a description of the Company's trade as a whole during its heyday. On various points it proved to be necessary to make comparative investigations, especially in the English East India Company's archives in London.*

---

## THE INDIAN OCEAN WORLD OF THE SEVENTEENTH CENTURY

---

**Routledge** *The Arabian Seas* is a magisterial work on the world political economy (trade, war, power) that explores the intersect of the worlds of Islam (including South and Southeast Asia, the Middle East and East Africa) and the European world-economy (particularly the seafaring Portuguese, Dutch, and British) on the eve of the modern world system. It is likely to become a classic in its field and one of the pillars of the emerging literature in recent years that has begun to recast our understanding of the "early modern history" of Asia and the world economy, underlining the early and long predominance of Asia in the world economy and showing the long and deep ties between European and Asian economic and military interactions. This work centrally addresses current debates on the nature of the early modern world system and the relative strengths of East and West. There are no competitors for this book, but it may be compared with Braudel's masterful studies of the Mediterranean in the sense that it does for the Arabian Seas (Indian Ocean World) spanning South Asia, the Middle East, and the East African Coast and beyond what Braudel did for the Mediterranean.

## **CHALLENGES TO THE FEDERAL PRISON SYSTEM AND MITIGATION INITIATIVES**

---

*The federal inmate population has increased more than eight-fold since 1980, and the Department of Justice (DOJ) has identified prison crowding as a critical issue since 2006. DOJ's Bureau of Prisons' (BOP) rising costs and offender recidivism present incarceration challenges to both DOJ and the nation. DOJ has implemented three key initiatives to address the federal incarceration challenges of overcrowding, rising costs, and offender recidivism, which includes the return of offenders to prison after release. This book discusses DOJ's initiatives to address federal incarceration challenges; the extent to which DOJ is measuring its efforts; and the extent to which DOJ is coordinating across its components to implement the Smart on Crime Initiative. Moreover, this book examines the 5-year post-release offending patterns of persons released from state prisons in 2005 by offender characteristics, prior criminal history, and commitment offense. It provides estimates on the number and types of crimes former inmates commit both prior to their imprisonment and after release. The book includes different measures of recidivism, including a new arrest, court adjudication, conviction, and incarceration for either a new sentence or a technical violation. It also documents the extent to which the released prisoners committed crimes in states other than the one that released them.*

## **EUROPEAN AND INDIAN MERCHANTS IN THE INDIAN OCEAN TRADE, 1500-1800**

---

**Manohar Publishers** The spectacular rise in world trade following the great discoveries of the closing years of the fifteenth century had important implications for each of the major segments of the newly emerging early modern international economy. As far as Asia was concerned, the commercial operations of the European corporate enterprises as well as private traders in the Indian Ocean region between the sixteenth and the eighteenth centuries had far-reaching consequences for the economies and the politics of the countries of the region. Asian merchants engaged in the Indian Ocean trade interacted with the European intruders into the Ocean in a variety of ways. The twenty-one essays included in this volume are firmly embedded in original archival sources. They deal mainly with issues arising out of the Europeans' commercial presence in the Indian Ocean region and the interaction they had with their Asian counterparts. The volume discusses how over a span of three centuries, the Indian economy was integrated into the world economy as a result of these interactions. The macroeconomic implications of the European encounter for the Indian economy are analysed in detail. Another important area explored at some length is the monetary history of the subcontinent in the early modern period. This collection of essays will be of interest of the historians of India and of the Indian Ocean. It will also have a great deal of appeal for the historians of early modern Asia as well as Europe. Those interested in what is being increasingly described as world history will also find the volume useful.

The Holman's, day hikers themselves, live near the Pacific Crest Trail. They searched for a way to give back to their community. When they gave another hiker a ride into town and he asked about a laundromat, it opened up a new journey for them. Opening their home for washing clothes, eating a hot meal, and offering a bed (or a couch) for the night gave them more than they ever expected. Their world expanded as they met hikers from across the nation, and from around the world. **Oxford University Press, USA** *Kenneth McPherson shows that for millennia the Indian Ocean had a profound influence on the lives of the people who lived on its shores. Fishermen, sailors and merchants traveled its waters linking the world's earliest civilizations from Africa to East Asia in a complex web of relationships. The ocean was also a highway for the exchange of religions, cultures and technologies, giving the Indian Ocean region an identity as a largely self-contained "world." This important study traces the history of the Indian Ocean from ages past to the present day.*
