Little Penguin Handbook

Pearson Higher Education AU The Little Penguin Handbook: Australasian Edition offers student-friendly features and includes coverage of the most current MLA, APA, CMS and Harvard citation, documentation, and style guidelines. Lyn Gannon from School of Education, Southern Cross University, has reviewed and further adapted the book specifically for the Australasian context. With more visuals and sample documents than other essential handbooks, this handy full-colour reference gives students just what they need to know about the writing and research processes, while providing coverage of documentation and grammar. The 2nd edition has been improved with some additional content and tabbed sections to allow students improved navigation and ease of use.

Rhetoric and Composition

An Introduction

Cambridge University Press Rhetoric and composition is an academic discipline that informs all other fields in teaching students how to communicate their ideas and construct their arguments. It has grown dramatically to become a cornerstone of many undergraduate courses and curricula, and it is a particularly dynamic field for scholarly research. This book offers an accessible introduction to teaching and studying rhetoric and composition. By combining the history of rhetoric, explorations of its underlying theories, and a survey of current research (with practical examples and advice), Steven Lynn offers a solid foundation for further study in the field. Readers will find useful information on how students have been taught to invent and organize materials, to express themselves correctly and effectively, and how the ancient study of memory and delivery illuminates discourse and pedagogy today. This concise book thus provides a starting point for learning about the discipline that engages writing, thinking, and argument.

Understanding Rhetoric

A Guide to Critical Reading and Argumentation

BrownWalker Press Understanding Rhetoric: A Guide to Critical Reading and Argumentation is a composition textbook that outlines three essential skills - rhetoric, argument, and source-based writing - geared towards newcomers and advanced students alike. Though comprehensive in its coverage, the book's focus is a simple one: how to move beyond a "gut reaction" while reading to an articulation of what is effective and what is not, while explicitly answering the most important question of "Why?" This text gets at this central concern in two fundamental ways. First, the text teaches composition as a cumulative process, coaching you how to question, challenge, and expand on not just the readings you hold in your hands, but also how to interrogate the internal processes of writing and thinking. The book's blend of composition methods detail the cross-point of product and process to turn reading and writing from a matter of coming up with answers to questions to learning what type of questions need to be asked in the first place. The "right" questions, the text argues, are fundamentally rhetorical in nature. Second, the content of the practice-based chapters is framed into a larger mesh of intellectual history to show how the writing and thinking you are doing today is continuous with a long history of writing instruction that goes back to the ancient world. This book provides equal representation from classical and contemporary theory with the recognition that theory cannot be fully grasped without practice, and practice cannot be fully understood without its theoretical antecedent. After all, you can't write "outside the box" until you know where the box is and what it looks like.

Writing Arguments, Brief Edition, Books a la Carte Edition, MLA Update Edition

Pearson NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value; this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a Course ID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. "For courses in

Argument and Research." " "This version of " "Writing Arguments: Brief Edition" "has been updated to reflect the 8th edition of the MLA Handbook (April 2016)." " " The 8th edition introduces sweeping changes to the philosophy and details of MLA works cited entries. Responding to the increasing mobility of texts, MLA now encourages writers to focus on the process of crafting the citation, beginning with the same questions for any source. These changes, then, align with current best practices in the teaching of writing which privilege inquiry and critical thinking over rote recall and rule-following." " " The most thorough theoretical foundation available "Writing Arguments: A Rhetoric with Readings, Brief Edition, 10/e" integrates four different approaches to argument: the enthymeme as a logical structure, the classical concepts of logos, pathos, and ethos, the Toulmin system, and stasis theory. Focusing on argument as dialogue in search of solutions instead of a pro-con debate with winners and losers, it is consistently praised for teaching the critical-thinking skills needed for writing arguments. Major assignment chapters each focus on one or two classical stases (e.g. definition, resemblance, causal, evaluation, and policy). Each concept is immediately reinforced with discussion prompts, and each chapter ends with multiple comprehensive writing assignments. This brief version includes readings within the chapters but excludes the anthology included in the comprehensive version." Also available in a Comprehensive version ("032190673X") and a Concise version which is a redaction of the Brief edition ("0321964284)." "

Chinese Rhetoric and Writing

An Introduction for Language Teachers

Parlor Press LLC Andy Kirkpatrick and and Zhichang Xu offer a response to the argument that Chinese students' academic writing in English is influenced by "culturally nuanced rhetorical baggage that is uniquely Chinese and hard to eradicate." Noting that this argument draws from "an essentially monolingual and Anglo-centric view of writing," they point out that the rapid growth in the use of English worldwide calls for "a radical reassessment of what English is in today's world." The result is a book that provides teachers of writing, and in particular those involved in the teaching of English academic writing to Chinese students, an introduction to key stages in the development of Chinese rhetoric, a wide-ranging field with a history of several thousand years. Understanding this important rhetorical tradition provides a strong foundation for assessing and responding to the writing of this growing group of students.

A Troubleshooting Guide for Writers

Strategies and Process

McGraw-Hill Humanities, Social Sciences & World Languages *A Troubleshooting Guide for Writers: Strategies and Process* is a brief rhetoric and reference for academic and business writers that provides over 280 specific writing strategies for solving problems at every stage of the writing process--from idea generation through editing. The book's practical approach not only helps writers with the broad challenges of planning and organization, but also with the specific challenges of style and grammar.

Writing Spaces 1

Readings on Writing

Parlor Press LLC Volumes in Writing Spaces: Readings on Writing offer multiple perspectives on a wide-range of topics about writing, much like the model made famous by Wendy Bishop's "The Subject Is . . ." series. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about developing nearly every aspect of craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level. Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration, and genres.

Speaking of Writing: A Brief Rhetoric

Broadview Press Can a writing textbook inform and entertain? Can a very brief rhetoric also function as a stand-alone guide to college writing? Yes and yes. *Speaking of Writing* is a concise yet comprehensive rhetoric with readings. Informed by scholarship in Writing Studies, this book follows four college students from diverse backgrounds as they face the challenges of reading, writing, and critical thinking in first-year writing and across the disciplines. Each chapter engages students in relatable, often humorous scenarios that focus on key challenges. Through its story-based approach, *Speaking of Writing* enacts student-centered and process-based pedagogy, showing students learning to address fundamental questions: How can I apply my own strategies for success to new assignments? How can I maintain my own voice when asked to compose in an academic style? What do college professors mean by a "thesis," and how is this different from what my high-school teachers meant? Why is this argument weak, and how can I make it stronger? The book's narrative vividly dramatizes a draft-and-revision process that includes instructor feedback, peer review, and careful research.

An Illustrated Book of Bad Arguments

The Experiment "A flawless compendium of flaws." —Alice Roberts, PhD, anatomist, writer, and presenter of *The Incredible Human Journey* The antidote to fuzzy thinking, with furry animals! Have you read (or stumbled into) one too many irrational online debates? Ali Almossawi certainly had, so he wrote *An Illustrated Book of Bad Arguments*! This handy guide is here to bring the internet age a much-needed dose of old-school logic (really old-school, a la Aristotle). Here are cogent explanations of the straw man fallacy, the slippery slope argument, the ad hominem attack, and other common attempts at reasoning that actually fall short—plus a beautifully drawn menagerie of animals who (adorably) commit every logical faux pas. Rabbit thinks a strange light in the sky must be a UFO

because no one can prove otherwise (the appeal to ignorance). And Lion doesn't believe that gas emissions harm the planet because, if that were true, he wouldn't like the result (the argument from consequences). Once you learn to recognize these abuses of reason, they start to crop up everywhere from congressional debate to YouTube comments—which makes this geek-chic book a must for anyone in the habit of holding opinions.

So What?

The Writer's Argument

Oxford University Press, USA So What? The Writer's Argument, Third Edition, teaches students how to write compelling arguments and explains why practicing argumentation is essential to learning and communicating with others. Practical exercises throughout each chapter reinforce this broader academic aim by focusing on the key issue of significance-helping writers answer the "So What?" question for themselves and their audiences. By showing students how their writing fits within the broader context of academic inquiry, So What?, Third Edition, encourages them to emulate and adapt the authentic academic styles, foundational organizing structures, and helpful rhetorical moves to their college classes and beyond.

Fahrenheit 451

A Novel

Simon and Schuster A totalitarian regime has ordered all books to be destroyed, but one of the book burners suddenly realizes their merit.

Axelrod & Cooper's Concise Guide to Writing

Macmillan Adapted from the best-selling St. Martin's Guide to Writing, Axelrod and Cooper's Concise Guide to Writing provides streamlined versions of the chapters covering six of the most commonly assigned genres in the first-year writing course — remembering events, writing profiles, explaining concepts, arguing a position, proposing a solution, and justifying an evaluation. The

careful integration of well-chosen readings with guided writing instruction in these chapters is complemented by coverage of strategies for reading, writing, and research in brief-but-complete chapters at the end of the book. Read the preface.
